OFFICE OF THE MAYOR
CITY OF CHICAGO

April 4, 1968.

Honorable John C. Marcin,
City Clerk,
Room 107, City Hall,
Chicago, Illinois, 60602.

DEAR MR. MARCIN—I have called a special meeting of the City Council for the purpose of paying honor to the life and memory of the Reverend Doctor Martin Luther King, Jr. The meeting is to be held on Friday, April 5, 1968 at 2:00 P.M. in the Council Chamber in the City Hall.

Very truly yours,
(Signed) RICHARD J. DALEY,
Mayor.

Resolution Adopted on Death of Rev. Dr. Martin Luther King, Jr.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, The assassin's bullet has once again shaken our country as it has wantonly ended the life of Reverend Dr. Martin Luther King, Jr., a great American; and

WHEREAS, We join with the expressions emanating from leaders of our Nation which pour out decrying the act of violence; praising Dr. King's vast contributions; noting his courage, commitment and sacrifice; mourning the loss to the wife and children, to the World, paying tribute to his meaningful life; and

WHEREAS, Dr. King has labored throughout his lifetime to emphasize the moral dimensions of our country's social problems, especially of poverty, race, peace; and

WHEREAS, Dr. King possessed a deep and abiding conviction that when Americans were confronted with the contradiction between their cherished ideals of brotherhood in the religious sphere and the existence of hatred and racism they would choose their ideal; and when confronted with the contradiction between their ideals of freedom and justice for all in the political sphere and the existence of poverty and prejudice they would be faithful to their ideal; and

WHEREAS, Dr. King had a dream of blacks and whites together being able to overcome the forces of fear and hatred. He said, in August, 1963:

"I have a dream . . . It is a dream deeply rooted in the American dream . . . I have a dream that one day in the red hills of Georgia, sons of former slaves and the sons of former slaveowners will sit down together at the table of brotherhood . . .

"I have a dream that my four little children will one day live in a nation where they will not be judged by the color of their skin but by the content of their character . . .

"I have a dream that one day every valley shall be exalted, every hill and mountain shall be made low, the rough places will be made plains, and the crooked places will be made straight, and the glory of the Lord shall be revealed, and all flesh shall see it together".

WHEREAS, The pursuit of this dream through nonviolent leadership caused him to become the third Negro, the twelfth American and the youngest man ever to receive the Nobel Prize for Peace; now, therefore,

Be It Resolved, That the members of the City Council of the City of Chicago, here assembled in special session do express the grief and sadness which has come to our hearts as a result of the brutal murder which has caused the death of this outstanding man; and

Be It Further Resolved, That we extend our sympathy, both officially and personally to the wife and family of Reverend Dr. Martin Luther King, Jr.; and

Be It Further Resolved, That the life of Dr. King and his ultimate total sacrifice provide us with the inspiration to deepen our dedication and commitment to the goals for which he gave so much; that the relationships of all men, especially here in our own City be characterized by love and understanding; that the advancement of the poor and least endowed be the object of our greatest efforts; and that we seek a world order in which peace and justice and brotherhood reign supreme; and

Be It Further Resolved, That the Mayor and members of the City Council, out of reverence and respect to his memory, choose a suitable permanent and lasting memorial to name in honor of Reverend Dr. Martin Luther King, Jr.

By unanimous consent committee consideration was dispensed with. Alderman Metcalfe moved to Adopt the foregoing proposed resolution.

Aldermen Cousins, Rayner and Despres presented the following amendment:

Amend the resolution by adding the following:

"Be it further resolved that the Department of Law is requested to draft and present to the next meeting of the City Council an ordinance changing the name of 47th Street to King Road, in honor and in memory of Martin Luther King, Jr.".

The foregoing amendment was *Referred to the Committee on Cultural and Economic Development.*

Aldermen Cousins, Rayner and Despres then presented the following amendment:

Amend the resolution by adding the following:

REPORTS AND COMMUNICATIONS FROM CITY OFFICERS.

May 1, 1968 Designated as "Law Day U. S. A." in Chicago and All Citizens Urged to Participate in Appropriate Programs.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, In many areas of the United States respect for constituted authority and the principle of the supremacy of law are being heedlessly challenged; and

WHEREAS, The rights and freedoms which Americans accept as their birthright are made possible only by public acceptance of and obedience to the rule of law. In today's complex society there is a particular need for understanding on the part of every citizen that respect for law is vital to the preservation of individual liberties, social justice, human and economic progress, equal rights, and a free and orderly society; and

WHEREAS, The Congress of the United States, and the President by official proclamation, have designated May 1 as Law Day USA, "a special day of celebration by the American people in appreciation of their liberties and the reaffirmation of their loyalty to the United States of America; of their rededication to the ideals of equality and justice under law in their relations with each other as well as with other nations, and for the cultivation of that respect for law that is so vital to the democratic way of life"; and

WHEREAS, It is especially fitting, therefore, that this year we should as citizens reaffirm our faith in the rule of law and in the supremacy of government by law rather than by men. The theme for

this eleventh annual observance of Law Day USA carries a timely message: Only A Lawful Society Can Build A Better Society. It reminds us only through adherence to the processes of law and representative government can our community and nation achieve the goals we seek in social betterment and progress; now, therefore,

Be It Resolved, That the members of the City Council of the City of Chicago, do hereby proclaim Wednesday, May 1, 1968, as Law Day USA in the City of Chicago and call upon all citizens, organizations, churches and schools to recognize this special day through appropriate programs and ceremonies.

Alderman Keane moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon said proposed resolution. The motion *Prevailed.*

Alderman Keane moved to adopt the foregoing resolution.

Aldermen Cousins, Rayner and Despres presented an amendment to add additional language to the foregoing proposed resolution, which was read by the Clerk.

Alderman Keane raised a point of order that the subject matter of the amendment was not germane to the pending proposed resolution. The Chair declared the point of order *well taken.*

During debate, Alderman Buchanan moved the previous question.

The main question thereupon being put, on the adoption of the foregoing proposed resolution, the motion Prevailed and said proposed resolution was *Adopted,* by yeas and nays as follows:

Yeas—Aldermen Metcalfe, Holman, Despres, Rayner, Bohling, Cousins, Lupo, Buchanan, Danaher, Swinarski, Staszcuk, Sheridan, Shannon, Hines, Fitzpatrick, Campbell, Frost, Janousek, Kuta, Collins, Marzullo, Zydlo, Sain, Jambrone, Biggs, McMahon, Keane, Sulski, Brandt, Sande, Laskowski, Aiello, Cullerton, Laurino, Scholl, Goldberg, McCutcheon, Rosenberg, Fifielski, Kerwin, Hoellen, O'Rourke, Wigoda, Sperling—44.

Nays—None.

Honorable Richard J. Daley, Mayor, then read the following statement:

Throughout the nation on May 1st there will be the observance of Law Day. This is the eleventh annual observance but at no time can this occasion have greater significance to every citizen.

It is the established policy of the Police Department—fully supported by this administration—that only minimum force necessary be used by policemen in carrying out their duties. But this established policy was never intended to support permissive violence, destruction, and a complete denial for that respect for law which is vital to our democratic way of life.

Certainly an officer should do everything in his power to make an arrest—to prevent a crime—by utilizing minimum force necessary. But I cannot believe that any citizen would hold that policemen should permit an arsonist to carry out his dangerous, murderous mission when minimum force necessary cannot prevent or deter him. There are few crimes that hold the potential of loss of life, or threat to the entire community as does arson.

Nor do I believe that any citizen supports the theory that in times of riot and chaos any person has the right to willfully and maliciously throw a brick through a store window for the purpose of burglary, encourage mob behavior and urge persons to become burglars and thieves and thus expose themselves to serious injury from possible police action. Again, that person should be restrained if possible by minimum force necessary—but he cannot be given permissive rights for his criminal action.

Much has been written and said—and I have been both highly praised and bitterly criticized—about the role of the police during a dangerous and inflammable riot.

I believe the basic responsibility of the Police Department is to protect the hundreds of thousands of citizens of the community—from loss of life, destruction and mayhem.

There can be no possible justification of a deliberate criminal act which results in helpless and homeless victims of a holocaust. All the people on the West Side had one universal demand—protect us from the arsonists—from the looter, from the mob and its leaders.

Men poised with Molotov cocktails, incendiaries, or fire bombs of any kind—are the same as the assassins who pulled the triggers on the guns that killed the Rev. Martin Luther King, Jr., and the late President John F. Kennedy.

We cannot resign ourselves to the proposition that civil protest must lead to death and devastation—to abandonment of the law that is fundamental for the preservation of the rights of all people and their freedom.

—

The Mayor also stated that he had directed the Superintendent of Police and the Fire Commissioner to grant compensation for extra duties performed by the uniformed personnel of both departments.

Tribute Paid to Late Roy T. Christiansen.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, Almighty God, in His Infinite Wisdom, has taken from our midst Roy T. Christiansen, former Commissioner of Buildings of the City of Chicago, on March 27, 1968, at the age of 72 years; and

WHEREAS, Mr. Christiansen served as Building Commissioner from 1947 to 1954, in the administration of the late Mayor Martin H. Kennelly. A noted architect, he was a partner in Christiansen & Tinucci Architects, Inc., of Chicago, which designed the Lincoln Sheraton Hotel in Houston, Texas, the addition to the Sheraton-Chicago Hotel, the Kungsholm Restaurant and other buildings of distinction in Chicago and elsewhere. During his career of seven years as head of the Department of Buildings, he was responsible for all policy decisions and operation of this vitally important department charged with insuring the public safety and welfare in the broad fields of conservation, building construction and housing, in a period of heightened activity due to local needs for housing and public improvements and to new legislation respecting the eradication of blighted areas. Under Mr. Christiansen's supervision, the Bureau of Housing was reorganized to place it on a basis of planned area surveys and inspections instead of solely on a complaint basis. A new unit, the Bureau of Compliance, was organized in 1952 which brought about improved procedures and developed an effective system to administer the various City codes covering construction, installation of mechanical equipment and minimum standards of housing. He also pioneered in the compiling of statistical data and pilot studies, starting with the Hyde Park-Kenwood District, which cleared the way for highway construction, slum clearance and other public projects thus laying the groundwork for the magnificent progress subsequently achieved by his successors; in so doing he unstintingly gave of his technical knowledge and energies to this Council and the various department heads and officials of the City in making Chicago a better place to live; now, therefore,

Be It Resolved, That the Mayor and members of the City Council of the City of Chicago, in meeting assembled this 17th day of April, A. D. 1968, hereby express their gratitude for the many years of public service which Roy T. Christiansen rendered to the City and their regret at his passing, and extend to his bereaved widow and two sisters their sincere sympathy; and

Be It Further Resolved, That a suitable copy of this resolution be presented to the widow of Roy T. Christiansen.

He was promoted to Assistant Foreman of Water Pipe Construction in 1914, to District Superintendent of the Water Pipe Extension Division in 1926, to Assistant Superintendent of the Water Distribution Division in 1956, to Superintendent of that Division in 1958, and was made General Superintendent in 1959; and

WHEREAS, Mr. Garrity served with distinction in the United States Army in World War I and held officer's rank when discharged. He was a 50 year member of Local 130 of the Chicago Journeymen Plumbers' Union, and was a member of the American Water Works Association. His father and brother also worked in the City's Water Department. He is survived by his wife, Ruth, and son, Richard J. Garrity; and

WHEREAS, John T. Garrity was a master of his trade and his long, faithful and efficient service on behalf of the City is deserving of both commendation and emulation; now, therefore,

Be It Resolved, That the Mayor and members of the City Council of the City of Chicago, in meeting assembled this 17th day of April, A.D. 1968, make public acknowledgment of our sorrow at the passing of a civil servant of exemplary integrity and dedication and extend to his bereaved family our most sincere condolences; and

Court Decision.

Also a communication from the Law Department addressed to the members of the City Council under date of March 26, 1968, signed by Howard C. Goldman, Assistant Corporation Counsel and Marvin E. Aspen, Head of Appeals and Review Division advising the City Council that on March 26, 1968 the Appellate Court of Illinois, First District, affirmed the judgment of the trial court in the cause entitled *City of Chicago* v. *Bethlehem Healing Temple Church, Case No. 51528* which found the defendant guilty of violating five provisions of the Municipal Code.

The defendant appealed only from the part of the judgment which found it in violation of Sections 48-4.3 and 64-1.2 (h) of the code, namely, failure to install automatic sprinkler system throughout defendant's entire building. The defendant owns a four story building which is used for a church, meeting hall and for religious instructions. The religious instruction is given to children on the third and fourth floors on specified days and hours. The primary issue raised in this cause is whether the above instruction qualifies the premises as a Type I school and therefore requires installation of a sprinkler system; the ordinance applies to any building two stories or more in height used in whole or in part as a school. The Appellate Court held that the defendant is operating a Type I school within the plain meaning and legislative purposes with the sections of the Municipal Code as previously stated. The Court pointed out however, that its decision was not intended to apply to every church, temple or synagogue which gives religious instructions but only to those of two or more stories which are used as Type I schools, in whole or in part, or as Type II schools in whole. —*Placed on File.*

The above elevations as fixed shall be measured from Chicago City datum as established by the City Council of the City of Chicago.

The roadway(s) of the several street(s) heretofore specified between the points herein described, also the roadway(s) of all intersection alley(s) extended from the curb line to the street line on each side of said specified street(s) between the points herein described shall be so graded by cutting for filling and compacted by rolling with a roller of ten (10) tons weight that after the grading of the roadbed(s) is completed and the pavement herein described placed thereon, the surface of the finished pavement at the center of the roadway of each of said specified street(s) shall be at the elevation of the top of the curbing herein described; and the surface of the said finished pavement at the summits in the gutters between catchbasins and adjoining the roadway face of the curbing shall be three (3) inches below the top of said curbing, and at the catchbasin inlets in the gutters adjoining the roadway face of the curbing shall be nine (9) inches below the top of said curbing. The slope of the gutters adjoining the roadway face of said curbing shall be uniform from the summits to the catchbasin inlets.

A transverse section of the surface of the finished pavement and gutters shall be an arc of a circle passing through the said gutter elevations and the elevation of the center of said finished roadway at every part of the roadway of each of said specified street(s) between the points herein described.

In all intersecting alley(s) herein specified at the street line(s) of said specified street(s) the surface of the finished pavement adjoining the curbing shall be even with the top of the curbing, and the surface of the finished pavement at the center of the roadways of said alleys shall be three (3) inches below the top of the curbing; and a transverse section of the surface of the finished pavement at the street line(s) of said specified street(s) shall be an arc of a circle passing through the surface of the pavement adjoining said curbing and the surface of the pavement at the center of said finished roadway(s). The surface of the said pavement thence shall slope gradually to meet the surface of the finished pavement at the curb lines of said specified street(s).

On the sub-grade as formed and compacted shall be spread an insulation course of limestone screenings. Said insulation course shall be one (1) inch in thickness and shall extend across the full width of the roadbed.

On the insulation course as formed and compacted shall be spread a foundation course consisting of a layer of crushed limestone of the best quality, broken so as to pass through a ring of four (4) inches internal diameter and held on a ring of two (2) inches internal diameter. The stone spread shall be well graded as to sizes. It shall be evenly distributed so as to leave no pockets filled with the small size stone. This layer shall be thoroughly rolled with a self propelled three wheel roller, weighing not less than ten (10) tons. The rolling shall begin at the edge of the pavement and the roller shall move parallel with the center line of the roadway. The roller shall progress gradually towards the center of the roadway, uniformly lapping each proceeding track, covering the entire surface with the rear wheels and continuing until the stone does not creep or move ahead of

the roller. After the crushed limestone has been thoroughly rolled and keyed, limestone screenings shall be applied gradually over the surface and the rolling continued until sufficient screenings have been applied to completely fill the interstices.

The screenings shall be swept in with hand brooms to properly fill the voids. The spreading and rolling shall continue until no more screenings will go in dry. No excess of screenings shall be used before applying water. Immediately after the voids have been filled with screenings, the macadam shall be sprinkled until saturated, the sprinkler being followed by a roller. More screenings shall be added if necessary. The sprinkling, sweeping and rolling shall continue until a grout shall be formed of the screening and water that will fill all voids, and form a wave of grout before the wheels of the roller. The quantity of screening and water necessary to fill the voids shall be determined by the engineer and shall be sufficient to produce a rough, granular surface. The rolling, at all times, shall begin at the sides, and then progress toward the center, thoroughly covering the entire surface with the rear wheels. When compacted, this layer shall measure not less than five (5) inches in thickness.

Upon the finished waterbound macadam base there shall be uniformly applied by an approved type of spreader box, two (2) inch stone to a depth providing a total base course thickness of three (3) inches after final compaction. After shaping to grade and rolling with a ten (10) ton roller three quarter (¾) inch stone chips shall be broadcast and broomed into the surface voids at the rate of fifteen (15) pounds per square yard. Liquid asphalt at a temperature of 140 degrees F. shall be uniformly applied by a pressure distributor at a rate of one and one-half (1½) gallons per square yard. Stone chips shall again be broadcast and broomed uniformly over the surface at the rate of fifteen (15) pounds per square yard. Liquid asphalt shall be uniformly applied by a pressure distributor at the rate of one-half (½) gallon per square yard. Stone chips shall be broadcast again at the rate of ten (10) pounds per square yard. The surface shall then be thoroughly rolled. The asphalt shall conform to the State Specification for Emulsified Asphalt R.S. 1 and R.S. 2, Page 640 of Illinois Standard Specifications for Road and Bridge Construction adopted January 2, 1952.

On the said foundation course shall be placed an asphaltic concrete surface course two (2) inches in thickness consisting of an asphaltic concrete mixture conforming to the standard requirements of the Illinois State Division of Highways for Type 1-11 Asphaltic Concrete adopted January 2, 1952, as follows: The asphaltic mix shall consist of a mineral aggregate bonded with the asphaltic cement. The mineral aggregate shall consist of the best quality of crushed gravel or crushed stone in sizes graduated in accordance with the following table, viz:

Asphaltic Concrete Surface Course, Fine Dense Graded Aggregate Type

Pass ½ inch sieve	95-100%
Passing ½ inch, retained on No. 4 sieve	45- 65%
Passing No. 4 retained on No. 10 sieve	10- 30%
Passing No. 10 retained on No. 40 sieve	5- 18%
Passing No. 40 retained on No. 50 sieve	7- 22%
Passing No. 80 retained on No. 200 sieve	5- 13%
Passing No. 200 sieve	4- 8%
Bitumen	5- 7%

(Table 45.11p. 247 State Specifications)

The asphaltic cement shall conform with the standard requirements of the Illinois State Division of Highways for Grade P.A. 6 Paving Asphalt, adopted January 2, 1952. It shall have a flash point (Cleveland open cup) 500 plus Fahrenheit. It shall have penetration at seventy-seven (77) degrees Fahrenheit of seventy-five (75) to eighty-five (85), and at least ninety-nine and five-tenths (99.5) per cent of bitumen shall be soluble in carbon disulphide.

When fifty (50) grams of said paving asphalt is heated in an uncovered tin box five and one-half (5½) centimeters in diameter and three and one-half (3½) centimeters in depth, and is held at a temperature of three hundred and twenty-five (325) degrees Fahrenheit for five (5) hours, then it shall have lost not over two (2) per cent by weight and the penetration of the residue thus obtained shall not be less than seventy (70) per cent of the penetration before such heating, said penetration being determined as herein described. Said paving asphalt shall have a ductility of not less than one hundred (100) centimeters being determined by elongating a briquette Dow form of said paving asphalt at uniform rate of five (5) centimeters per minute at a temperature of seventy-seven (77) degrees Fahrenheit.

The paving asphalt and mineral aggregate shall be mixed when heated between three hundred (300) and three hundred fifty (350) degress Fahrenheit in an approved mixer to produce a homogenous mixture in which all particles of aggregate are coated uniformly. The heated mixture shall be delivered to the pavement in trucks with approved clean tight dump bodies. The temperature when delivered at the street shall be between two hundred fifty (250) and three hundred fifty (350) degrees Fahrenheit. Upon arrival the asphaltic mixture shall be spread upon the prepared base at a uniform depth and consistency so that the thickness when compacted as herein described will be two (2) inches.

Immediately after the asphalt surface course shall be spread it shall be connected thoroughly and uniformly with a three (3) wheel roller or a tandem roller. The asphalt paving mix shall be dumped first upon approved steel dump pans outside of the area on which it is to be spread. Immediately thereafter it shall be distributed into place with shovels and spread with rakes in layers of uniform density and correct depth, unless a spreading machine is used. If a spreading machine is used it shall be of a type approved by the Board of Local Improvements. Immediately after the surface course mixture is placed it shall be compacted thoroughly with a three-wheel roller or a tandem roller. One (1) or more three-wheel rollers and one (1) or more tandem rollers will be required. The actual number of such rollers to be determined by the Engineer in accordance with the progress of the work. If the production of the asphalt plant delivered to the pavement exceeds seventy-five (75) tons per hour additional rollers shall be furnished as directed by said Engineer. After a final rolling the asphalt surface course shall at all points have a density of not less than ninety-five (95) per cent of the maximum possible density of a voidless pavement composed of the same materials in like proportions.

POZZOLANIC BASE COURSE.

IV-2. On the subgrade as formed and compacted shall be placed and compacted to the depth shown on the plans and as herein provided.

(a) The pozzolanic base course shall be constructed in layers not more than 6 inch (com-

pacted) in thickness. When the thickness specified is more than 6 inches the base course shall be constructed in 2 or more approximately equal layers. Each layer shall be deposited, full-lane width, directly on the prepared subgrade or on the preceeding layer of compacted mixture with a mechanical spreader box of a type approved by the Engineer. Where the base must be constructed is more than one layer, the previous layer shall be maintained in a moistened condition until the succeeding layer is placed. After having been tested for density and approved by the Engineer, the previous layer shall be raked to a depth of one inch and dampened with water immediately prior to placing the succeeding layer so that the layers are in it together. The second layer must be placed the same day as the first layer. The Engineer of the Board of Local Improvements shall determine when the base course shall be constructed in one or more lifts. When placed, the pozzolanic mixture shall be free from segregation and shall require minimum blanding and manipulation. Immediately after placing, the mixture shall be compacted with a pneumatic-tired roller, or with a vibratory compactor, or with a combination of the two. The base course, shall be given a final rolling with a three wheel or tandem roller. If the pozzolanic base is placed on gradual sub-base, the pozzolanic base shall be compacted to at least 100 per cent of maximum density except that if more than one layer is required the first layer shall be compacted to 97% of maximum density and succeeding layers shall be compacted to 100% of maximum density.

(b) All pozzolanic mixture shall be placed and compacted the same day as it is mixed. The entire base course within the increment of work shall be completed within 24 hours.

(c) Except in specific cases, when otherwise permitted by the Engineer the pozzolanic base course mixture shall be placed between April 15 and October 15 and only when the temperature is 40° or more.

(d) The three wheel or tandem rollers shall weigh from 6 to 10 tons and shall weigh not less than 200 pounds nor more than 325 pounds per inch width of roller. The compression developed by the pneumatic-tired roller shall be not less than 225 pounds per inch of tire width.

IV-4. MATERIALS. All materials shall conform to the following requirements:

(a) Lime. High-calcium hydrated lime or monohydrated dolomitic lime shall be used. The lime shall have a total oxide (calcium and magnesium) equivalent of not less than 85 per cent and a loss of ignition of not more than 25 per cent. Monohydrated dolomitic lime shall have only the calcium component hydrated. Exposure of the lime to air shall be held to a minimum. If more than 10 per cent of the lime has reverted to a carbonate, it shall not be used.

(b) Fly ash. The pozzolan, prior to dampening thereof to alleviate the dust problem shall comply with the requirements of ASTM Designation: C-379 or C-432 with 10% maximum loss on ignition. The tests prescribed by this specification shall be performed at the option of the engineer. At the time of mixing the pozzolan shall be in a finely divided condition such that 95% shall pass a ½ inch sieve when dry-sieved.

(c) Course Aggregate. The coarse aggregate shall be gravel, crushed stone, crushed slag or boiler slag meeting the following requirements:

(1) Gravel, crushed stone or crushed slag. The gradation for all three materials, shall be as follows:

No. 4	40-100%
No. 40	10- 35%
No. 200	
(gravel)	0- 10%
(crushed stone & slag)	0- 15%

(2) Boiler slag. The slag shall be wet bottom boiler slag produced as a by-product of a power plant burning pulverized bituminous coal. The slag shall be composed of hard durable particles and shall be free of excessive or harmful amounts of foreign substances. Boiler slag or granulated slag in an oven dry condition shall meet the following gradation requirements:

Sieve	*Per Cent by Weight Passing*
No. 4	80-100%
No. 10	55- 90%
No. 40	0- 25%
No. 200	0- 10%

Note: Granulated slag will be permitted only when authorized in writing by the Engineer.

(d) Samples. The contractor, shall at his own expense, submit to the Engineer a minimum of 25 pounds of lime, 100 pounds of fly ash and 150 pounds of the course aggregate which he proposed for use in the pozzolanic mixture. The lime, when sampled, shall immediately be placed in a sealed container and shall be kept sealed. Samples shall be furnished at least 45 days prior to the construction of the pozzolanic base course. The samples as submitted will be tested for acceptance of materials and also to determine whether or not they will produce a satisfactory mixture; and will be used to determine preliminary proportions for the mixture composition.

IV-4. COMPOSITION OF MIXTURE.

(a) The lime, pozzolan and aggregate shall be proportioned within the following limits on a dry-weight basis:

PERCENT BY WEIGHT OF TOTAL DRY MIXTURE
GRAVEL, CRUSHED STONE
OR CRUSHED SLAG

Ingredient	*Aggregate Blend*	*Boiler Slag*
Lime	2- 5	2- 4
Pozzolan	8-16	15-30
Aggregate	79-90	56-78

(b) The actual proportions of lime, pozzolan, water and aggregate will be set by the Engineer before work begins and will be based on tests conducted on mixtures composed of samples of the constituent materials furnished by the Contractor. The right is reserved by the Engineer to make such changes in proportions during the progress of the work as he may consider necessary.

(c) The composition of the mixture shall be such that when molded into cylinders, cured and tested as stated in the following paragraph, each cylinder shall have a minimum compressive strength of 450 psi and a maximum weight loss of 14% after 12 cycles of freezing and thawing.

(d) Test cylinders shall be molded at the optimum moisture content and maximum density in accordance with AASHO Designation T 180, Method C, except that the 5 lift requirement is replaced with 3 lifts and no replacement of coarse aggregate (+¾ inch sieve) is made. The molded specimens shall immediately be placed in an oven

with forced air circulation for 7 days at 100+3 F. At the end of 7 days, the test cylinders for compressive strength testing shall be removed from the containers, allowed to cool to room temperature, soaked for four hours capped and broken for compressive strength within one hour of time of removal from water. The specimens to be tested for freeze-thaw resistance shall be cured in the same manner as the strength specimens without the 4 hour soaking period. After curing the specimens shall be subjected to 12 cycles of freezing and thawing in accordance with AASHO Designation: D 560, sections 5, 9 and 10 pertaining to specimen No. 2 (weight loss specimen).

IV-5. MIXING.

(a) The constituents of the mixture shall be accurately proportioned and thoroughly mixed in a mechanical mixer at a central mixing plant. The measuring devices for proportioning the mixer, either by volume or by weight shall be of such accuracy that the proportions of the mixture based on total dry weight will be maintained within the following tolerances:

Lime	+0.3 percent by weight
Fly ash	+1.5 percent by weight
Aggregate	+2.0 percent by weight

(b) The equipment used must be provided with means, meeting with approval of the Engineer, for calibration and check tests of measuring devices. In all plants, the water shall be proportioned by weight or volume and there shall be means by which the Engineer may readily verify the amount of water per batch or the rate of flow for continuous mixing. The contractor shall provide a platform scale and make arrangements for the use of a certified truck scale of sufficient capacity for calibration and periodic check tests of the feeders or measuring devices as needed during production.

(c) The mixer shall be capable of producing a uniform mixture. Mixing operations shall be continued until all ingredients are distributed evenly throughout the mixture and a uniform mixture, free of segregation, is obtained. SECTION 2. Agreement between the City of Chicago
and
The University of Chicago
for Construction of
a Social Services Center.

This Agreement, entered into as of the ..... day of ....., 1968, between the City of Chicago, a municipal corporation of the State of Illinois (hereinafter referred to as "City"), and The University of Chicago, an Illinois not-for-profit corporation (hereinafter referred to as the "University").

Witnesseth:

Whereas, Section 703 of the Housing and Urban Development Act of 1965 authorizes a program of Federal grants to assist in financing the development cost of neighborhood facilities for accommodating programs of community service. Under this program any local public body or agency which possesses authority under State or local law may apply to the U.S. Department of Housing and Urban Development (hereinafter referred to as "H.U.D.") for a grant. A nonprofit organization may contract with the grant applicant to own or operate such a facility provided that it has the legal, financial and technical capacity to carry out the project; and

Whereas, pursuant to an ordinance duly passed by the City Council of the City of Chicago on the 19th day of September, 1966, the City, in accordance with the above referenced federal act, on September 29, 1966, filed a "Part I" application to H.U.D. for a Neighborhood Facilities Grant, for funds to assist in financing the construction of a Social Services Center (hereinafter referred to as the "Facility") to serve the Woodlawn Community. The location of the Facility is within the boundaries of a slum and blighted area known as 60th and Cottage Grove Avenue and said area was so designated by the City Council of the City of Chicago on the 16th day of November, 1964. On January 11, 1967 H.U.D. approved a grant reservation of $1,291,393 (two-thirds of the estimated total development cost of $1,937,090) for said project. On July 10, 1967 the City submitted a "Part II" application for such grant, including Design Development drawings relating to the construction project, and on ....., 1968, H.U.D. and the City entered into Contract No. Ill. N-5(G) for a Federal capital grant in the amount reserved as aforesaid, for such project; and

Whereas, the University is an institution of higher learning located immediately adjacent to Woodlawn. Its School of Social Service Administration (hereinafter called the "School") conducts a program of education in social welfare services and administration. The University, with the participation of the School, has the legal, financial and technical capacity to carry out the development, construction, operation and management of the Facility. The Facility will be located on the Northeast Corner of Sixty-first Street and Ingleside Avenue in Chicago, convenient to the Woodlawn Area and the School. As planned, and in keeping with the requirements of the Federal Neighborhood Facilities program, leading public and non-profit private social welfare and community service agencies which serve the Woodlawn Community will be located in the Facility. The School, as a part of its educational program, will provide graduate students to help the agencies to carry out their programs. The School will assist the agencies to achieve closer coordination of their work and to increase the coverage of social welfare services for the Community; and

Whereas, on May 12, 1967, the U.S. Department of Health, Education, and Welfare (hereinafter called "H.E.W.") awarded the University a Child Welfare Research and Demonstration Grant under which a total of $2,097,166 in funds is to be received over a five year period to help finance the University's activities in the establishment and operation of the Social Services Center; and

Whereas, the University is the owner in fee simple of the parcel of land upon which the Facility is to be constructed and there will be no charge for the use of said land for the purposes of construction of the improvement in accordance with the terms as hereinafter set forth. An architectural firm, Hausner & Macsai, Inc., was retained by the University to prepare Design Development drawings and furnish other architect-engineer services required for the construction of the Facility. The University shall submit the construction plans and specifications to the City as soon as they are completed and, upon written approval thereof by the City, shall commence construction. The construction shall be in accordance with approved plans

and specifications and the City shall have the right to inspect the site during the said construction; and

WHEREAS, upon completion of the Facility the University will occupy it and make it available to city, county, state and non-profit agencies, and to its own staff, in accordance with the purposes set forth in the H.E.W. and H.U.D. grants; and

Whereas, the City has determined that the University is well qualified to contract for construction of the Facility and to operate Facility for the purposes set forth in the Part I application for the H.U.D. grant, and the University is ready and able to accept these responsibilities provided that the City will contribute the H.U.D. grant in the amount of 2/3 of the estimated development cost as hereinabove set forth for the construction of the Facility; and

Whereas, the University will furnish all necessary funds to complete and equip the Facility to the extent that the costs exceed the H.U.D. grant.

Now, Therefore, in consideration of the foregoing and the mutual covenants and promises of the parties hereto as hereinafter set forth, it is agreed as follows:

1. In furtherance of said Contract No. Ill. N-5 (G), the City engages the University to perform, or to have performed by others under its supervision, the design and construction of the Facility, a three story and partial basement unit having a gross floor area of approximately 60,000 square feet, to be located at the Northeast corner of Sixty-first Street and Ingleside Avenue, in Chicago, Illinois.

2. The University covenants to construct, own, operate and carry out the purposes of the Facility in accordance with the requirements of said Contract No. Ill.N-5(G) and all applicable laws of the United States of America and the rules and regulations of the Secretary of H.U.D.

3. The University agrees to make available for the said construction certain vacant land owned by it at the Northeast Corner of 61st Street and Ingleside Avenue, legally described as follows:

> An area located at the Northeast Corner of S. Ingleside Avenue and East 61st Street, starting at the corner, thence North 247 feet, thence East 170.605 feet, thence South 122 feet, thence East 65.565 feet, thence South 125 feet and thence West 256.170 feet to the point of origin, encompassing all or parts of Lots 13, 14, 15, 16, 17, 18, 19, 20 and 21 in Clark, Martin and Layton's subdivision of the South half of the North half of the Southwest quarter of Section 14, Township 38 North, Range 14 East of the Third Principal Meridian, in Cook County, Illinois, and a portion of the alley between South Ingleside Avenue and South Ellis Avenue, vacated by ordinance passed June 11, 1917, recorded July 2, 1917, as document 6144706.

4. The University, during the twenty year period of the operation of the said Facility, shall remain the owner in fee simple title of the land and the Facility thereon and covenants that it will not sell, convey or in any manner transfer title to the Facility nor will it create or suffer to be created any mortgage, pledge, lien or charge upon the Facility or any part thereof except for the agreements with agencies to be accommodated in the Facility as set forth in Section 10 below. The University shall from time to time, duly pay and discharge, or cause to be paid and discharged when the same become due all taxes, assessments and other governmental charges which are lawfully imposed upon said Facility and thereby impair or otherwise adversely affect the holding of the Facility for the use or uses set forth in the Contract between the City and H.U.D.

5. The University will cause the design and construction of the Facility to be completed in accordance with Design Development drawings prepared by Hausner & Macsai, Inc., Architects, which was made a part of the Part II submission for the project to H.U.D., prior to the start of construction. The final plans and specifications shall be subject to approval by the City and H.U.D. The University shall solicit bids and award the contract in accordance with the standards and requirements for such projects established by H.U.D. During the period of construction the University shall permit the City to inspect the project at all reasonable times, and shall furnish periodic progress reports and other required information to the City and H.U.D.

6. Upon execution of this contract, the University shall submit an invoice for an amount equal to the federal share of eligible costs incurred as of the date of the contract, and the University will be reimbursed therefor. Thereafter, the University will receive an amount equal to the federal share of the project cost through reimbursement of costs on a progress payment basis upon submission of invoices when approximately twenty-five percent (25%), fifty percent (50%), seventy-five percent (75%) and one hundred percent (100%) of the costs have been incurred. The final payment of an amount equal to ten percent (10%) of the federal grant will be withheld until final certification of the costs has been secured.

7. In no event shall the City be required to furnish any money for the construction of the said Facility other than the funds received from the H.U.D. grant.

8. The University will raise or supply the matching funds required as a condition to receiving the H.U.D. grant, in the aggregate amount of $645,697 from non-Federal sources. In the event that total project costs will exceed the $1,937,090 currently estimated, the University will furnish or obtain the additional sums required. It is agreed, however, that every effort will be made to keep within the original estimate, and that the University may make revisions in design features and project scope if needed to conform costs to the original budget, providing said changes are approved by H.U.D. and the City.

9. Upon completion of the Facility the University will devote the Facility to the uses and purposes set forth in the Part I application to H.U.D., for a period of not less than twenty years. The University shall not devote the Facility to any other use for the said period unless the City and H.U.D. grant prior written approval for the said change in use. In the event the University devotes the Facility to a use other than the uses and purposes set forth in Part I of the application to H.U.D. during the said twenty year period without the approval of the City and H.U.D., the University shall indemnify and hold harmless the City from any and all liability which the City might incur as a result of the said discontinued use in accordance with the H.U.D. grant, including but not limited to H.U.D. and the U.S. Government.

Should the Facility be totally destroyed or damaged so as to render it unusable, and the University determines not to rebuild, the University, upon demand by H.U.D., will repay H.U.D. an amount determined in accordance with the following formula:

So long as the Lessor provides electricity in the Building, the Lessee shall obtain all current used in the premises from the Lessor and pay the Lessor's charges therefor, within ten days after the rendition of each statement of current, unless otherwise specified in the Lessor's statement of accounts. The Lessee's failure to pay promptly the Lessor's charges for electricity shall entitle the Lessor, upon not less than ten days' notice, to furnish thereafter current to the Lessee and no such discontinuance shall be deemed an eviction or disturbance of the Lessee's use of the premises or render the Lessor liable for damages or relieve the Lessee from performance of the Lessee's obligations under this lease. If, not less than thirty days' notice, the Lessor may cease to furnish electricity to the Lessee without any responsibility to the Lessee except to connect, within the thirty-day period, the electric wiring system of the premises with another source of supply of electricity. Electrical service may be discontinued, upon thirty days' notice, from other tenants to allow wiring, switchboards and risers of the Lessor to the Lessee. Any such interruption shall not be deemed an eviction or disturbance of the Lessee's use and possession of the premises or any part thereof, or render the Lessor liable to the Lessee for damages, or relieve the Lessee from performance of the Lessee's obligations under this lease.

3. Lessor's Title: The Lessor's title is and always shall be paramount to the title of the Lessee, and nothing herein contained shall empower the Lessee to do any act which can, shall or may encumber the title of the Lessor.

4. Certain Rights Reserved to the Lessor: The Lessor reserves the following rights: (a) to change the name or street address of the Building without notice or liability to the Lessee or the Lessee's agents or employees; (b) to install and maintain a sign or signs on the exterior of the Building; (c) to have access for the Lessor and the other tenants of the Building to any mail chutes located on the premises according to the rules of the United States Post Office Department; (d) to decorate and to perform any covenant whatsoever for the benefit of any tenant or occupant of the Building or of any other person, including the Lessee's agents and servants. This Section 4 shall apply essentially, but not exclusively, to the flooding of basements or other subterranean areas, and to broken pipes, leaky roofs, refrigerators, sprinkling devices, air conditioning apparatus, water, snow, frost, steam, excessive heat or cold, falling plaster, broken glass, sewerage, gas, odors or noises, or the bursting or leaking of pipes or plumbing fixtures, and shall apply equally whether any such damage results from the act or neglect of the Lessor or of other tenants, occupants or servants in the Building or of any other person, and whether such damage be caused or result from any thing or circumstance above mentioned or referred to, or any other thing or circumstance whether of a like nature or of a wholly different nature. If any such damage, whether to the demised premises or to the Building or any part thereof, or whether to the Lessor or to other tenants in the Building, result from any act or neglect of the Lessee, the Lessor may, at the Lessor's option, repair such damage and the Lessee shall, upon demand by the Lessor, reimburse the Lessor for the total cost of such repairs. The Lessee shall not be liable for any damages caused by its act or neglect if the Lessor or a tenant has recovered the full amount of the damages from insurance and the insurance company has waived in writing its right of subrogation against the Lessee. All property belonging to the Lessee or any occupant of the premises that is in the Building or the premises shall be there at the risk of the Lessee or other person only, and the Lessor shall not be liable for damage thereto or for theft or misappropriation thereof.

If the Lessee remains in possession of the premises, or any part thereof, after the termination of the term by lapse of time or otherwise, and without the execution of a new lease, then at the option of the Lessor expressed in a written notice to the Lessee and not otherwise, constitutes a renewal of this lease for one year. The provisions of this Section do not waive the Lessor's right of reentry or any right hereunder.

7. Condition of Premises: The Lessee's taking possession shall be conclusive evidence as against the Lessee that the premises were in good order and satisfactory condition when the Lessee took possession. No promise of the Lessor to alter, remodel or improve the premises or the Building and no representation respecting the condition of the premises or the Building have been made by the Lessor to the Lessee, unless the same are contained in this lease or made a part hereof. This lease does not grant any rights to light or air over property, except over public streets kept open by public authority. At the termination of the lease by lapse of time or otherwise, the Lessee shall restore the premises in as good condition as when the Lessee took possession, ordinary wear and tear by fire excepted, failing which the Lessor may restore the premises to such condition and the Lessee shall pay the cost of such restoration. The Lessee shall remove all signs placed by the Lessee, provided (a) the Lessee also removes all nails, tacks, paper, glue, bases and other vestiges of the floor covering, and restores the floor surface to the condition existing before such floor covering was laid, or (b) the Lessee pays to the Lessor, upon request, the cost of restoring the floor surface to such condition. If the Lessee does not remove the Lessee's floor coverings, then the premises prior to the termination of the lease shall be considered as abandoned by the Lessee and abandoned the same and title thereto shall thereby pass to the Lessor without payment or credit by the Lessor to the Lessee.

8. Alterations: The Lessee shall not make any alterations in or additions to the premises without the Lessor's advance written consent in each and every instance. The Lessor's decision to consent shall be entirely discretionary. If the Lessor consents to such alterations or additions, before commencement of the work or delivery of any materials onto the premises or into the Building, the Lessee shall furnish the Lessor with plans and specifications and the names of contractors, copies of contracts, necessary permits and indemnification in form and amount satisfactory to Lessor and waivers of lien against any and all claims, costs, damages, liabilities and expenses which may arise out of or relate to the alterations or additions. All additions and alterations shall be installed in a good, workmanlike manner and only new, high-grade materials shall be used. Whether the Lessor consents or not, the Lessee hereby agrees to hold the Lessor harmless from any and all liabilities of every kind and description which may arise out of or be connected in any way with said alterations or additions. Before commencing the work on any alterations or additions, the Lessee shall furnish the Lessor with certificates of insurance from all contractors performing labor or furnishing materials covering the Lessor against any and all liabilities which may arise out of or be connected in any way with said additions or alterations. The Lessee shall pay the cost of all such alterations and additions and also the cost of decorating the premises occasioned by such alterations and additions. Upon completion any alterations or additions, the Lessee shall furnish the Lessor with contractors' affidavits in full and final waivers of lien and receipted bills covering all labor and materials expended and used. All alterations and additions shall comply with all insurance requirements and with all ordinances and regulations of the City of Chicago and with any other laws or regulations that may be enacted by the State of Illinois or any department or agency thereof. The Lessee shall permit the Lessor to supervise construction operations in connection with alterations or additions if the Lessor requests to do so. All additions, hardware, non-trade fixtures and all improvements, temporary or permanent, in or upon the premises, whether placed there by the Lessee or by the Lessor, shall, unless otherwise provided by written agreement between the Lessor and the Lessee, become the property of the Lessor and shall remain upon the premises at the termination of this lease by lapse of time or otherwise without compensation or allowance or credit to the Lessee. If, upon the Lessor's request, the Lessee does not remove said additions, hardware, non-trade fixtures and improvements, the Lessor may remove the same and the Lessee shall pay the cost of such removal to the Lessor upon demand. The Lessee shall repair any injury to the premises occasioned by such removal, and shall restore the premises to a condition equal to that existing at the commencement of the term, reasonable wear excepted. If the Lessee shall not remove said fixtures and other items of personal property of every kind and description from the premises prior to the end of the term, however ended, and if, after such removal, the Lessor may request their restoration, and if the Lessee does not remove them, the Lessor may do so and the Lessee shall pay the cost of such removal to the Lessor upon demand. If the Lessee does not request their removal, all such items shall be conclusively presumed to have been conveyed by the Lessee to the Lessor under this lease as a bill of sale without further payment or credit by the Lessor to the Lessee.

9. Use of Premises: (a) The Lessee shall occupy and use the premises during the term for the purpose above specified and none other. (b) The Lessee shall not exhibit, sell or offer for sale on the premises or in the Building any article or thing except those articles and things reasonably necessary to the use of the premises specified above, without the Lessor's written consent. (c) The Lessee will not make or permit to be made any use of the premises which, directly or indirectly is forbidden by public law, ordinance or governmental regulation or which may be dangerous to life, limb or property, or which may invalidate or increase the premium cost of any policy of insurance carried on the Building or covering its operation. (d) The Lessee shall not place a load upon any floor exceeding the floor load per square foot area which the Building may sign, notice, legend, direction, figure or advertisement, except on the doors of the premises and on the Directory Boards, and then only such name or names and in such number, size, style, location and material, as shall first have been approved by the Lessor in writing. (e) The Lessee shall not advertise the business, profession or activities of the Lessee conducted in the Building in any manner which violates the letter or spirit of any code of ethics adopted by any recognized association or organization pertaining to such business, profession or activities, and shall not use the name of the Building for any purpose other than that of the business address of the Lessee, and shall never use any picture or likeness of the Building in any circulars, notices, advertisements or correspondence without the Lessor's express consent in writing. (f) The Lessee shall not obstruct, or use for storage or for any purpose other than ingress and egress, the sidewalks, entrances, passages, courts, corridors, vestibules, halls, elevators and stairways of the Building. (g) No bicycle or other vehicle and no dog or other animal or bird shall be brought or permitted to be in the Building or any part thereof. (h) The Lessee shall not make or permit any noise or odor that is objectionable to other occupants of the Building or emanate from the premises, and shall not create or maintain a nuisance thereon or commit or suffer any waste in or upon any part of the Building, and shall not do any act tending to injure the reputation of the Building. (i) The Lessee shall not install any player piano, phonograph, or other musical instrument, or radio or television set in the Building, or any antenna, aerial wires or other equipment inside or outside the Building, without, in each and every instance, prior approval in writing by the Lessor. The use thereof, if permitted, shall be subject to the rules and regulations set by the Lessor, and others shall not be disturbed or annoyed. (j) The Lessee shall not place or permit to be placed any article of any kind on the window ledges or on the exterior walls, and shall not throw or permit to be thrown any dirt or other article or thing from any window of the Building. (k) The Lessee shall not undertake to regulate any thermostat, and shall not waste water by tying, wedging or otherwise fastening open any faucet. (l) The Lessee shall not install or operate any steam or gas engine or boiler or other machinery in the premises. No smoking or any door other than those provided by the Lessor shall be made. If more than two keys for one lock are desired by the Lessee, the Lessor may provide the same upon payment by the Lessee therefor. Upon termination of this lease or of the Lessee's possession the Lessee shall surrender all keys of the premises and shall make known to the Lessor the explanation of all combination locks on safes, safe deposit and vaults. (m) The Lessee shall not overload the floor of the premises or mark, drive nails or screws or drill holes into the walls or woodwork or paint or paper the premises without the Lessor's consent. The Lessor prescribes the weight and position of safes, which shall be placed upon supports approved by the Lessor to distribute the weight properly. Safes, furniture and all large articles shall be brought through the Building and into the premises at such times and in such manner as the Lessor shall direct and at the Lessee's sole risk and responsibility. The Lessee shall list all furniture, equipment and similar articles to be removed from the Building, and the list must be approved by the Office of the Building or by a designated person before building employee will permit any article to be removed. (n) Unless the Lessor gives advance written consent in each and every instance, the Lessee shall not install or operate any steam or internal combustion engine, boiler, machinery, refrigerating or heating device or air conditioning apparatus in or about the premises, or carry on any mechanical business therein, or use the premises for lodging accommodations or lodging or sleeping purposes, or do any cooking therein, or use any illumination other than electric light, or use or permit to be brought into the Building any inflammable oils or fluids such as gasoline, kerosene, naphtha and benzine, or any explosive or other articles deemed extra hazardous to life, limb or property. (o) The Lessee shall not place or allow anything to be affixed or near the glass of partitions or doors of the premises which may diminish the light in, or be unsightly from, halls or corridors. (p) The Lessee shall not install in the premises any equipment which uses a substantial amount of electricity without the advance written consent of the Lessor. The Lessee shall severely limit the use of the maximum amount of electrical current which can safely be used in the demised premises, taking into account the capacity of the electric wiring in the Building and the premises and the needs of other tenants in the building and shall not use more than such safe capacity. The Lessor's consent to the installation of electric equipment shall not relieve the Lessee from the obligation not to use more electricity than such safe capacity. (q) The Lessee shall not lay linoleum or other similar floor covering so that the same shall come in direct contact with the floor of the premises, and if linoleum or other similar floor covering is used, a felt base shall be affixed to the floor by paste or other material soluble in water. The violation of any covenant of this Section 9 may be restrained by injunction.

10. Repairs: Subject to the provisions of Section 13, the Lessee shall, at the Lessee's own expense, keep the premises in good order, condition and repair during the term, including the replacement of all broken glass with glass of the same size and quality, with stained glass, if any, therein, under the supervision and with the approval of the Lessor. If the Lessee does not make regular promptly and adequately, the Lessor may, but need not, make repairs, and the Lessee shall pay promptly the cost thereof. At any time during the term, the Lessor, either voluntarily or pursuant to governmental requirement, may, at the Lessor's own expense, make repairs, alterations or improvements in or to the Building or any part thereof, including the premises, and during operations, may close entrances, doors, corridors, elevators or other facilities, all without any liability to the Lessee by reason of interference, inconvenience or nonoccupancy. The Lessee shall not be liable to the Lessee for any expense, injury, loss or damage resulting from work done in or upon, or the use of, any adjacent or nearby building, land, street or alley. The Lessee shall pay the Lessor for overtime and for any other expense incurred in event repairs, alterations, decorations or other work in the premises are not made during ordinary business hours at the Lessee's request.

12. Untenantability: If the premises or the Building are made untenantable by fire or other casualty, the Lessor may elect (a) to terminate this lease as of the date of the fire or casualty by notice to the Lessee within thirty days after that date, or (b) to repair, restore or rehabilitate the Building or the premises at the Lessor's expense within one hundred twenty days after the Lessee is assisted to take possession of the premises and such repair, restoration or rehabilitation, in which latter event the lease shall not terminate but rent shall be abated on a per diem basis while the premises are untenantable. If the Lessor elects so to repair, restore or rehabilitate the Building or the premises and does not substantially complete the work within the one hundred twenty day period, either party can terminate this lease as of the date of the fire or casualty by notice to the other party not later than ten hundred thirty days after the Lessor is enabled to take possession of the missed premises and undertake reconstruction or repair. In the event of termination or also pursuant to this Section 12, the Lessee shall be apportioned on a per diem basis and be paid to the date of the fire or casualty. Alterations, decorations or other work in the premises are not made during ordinary business hours at the Lessee's request.

14. Eminent Domain: If the Building, or any portion thereof which includes all or any part of the premises or which prevents the operation of the Building, shall be taken or condemned by any competent authority for any public use or purpose, the term of this lease shall end upon, and not before, the date when the possession of the part so taken shall be required for such use or purpose, and without apportionment of the condemnation award. The Lessor shall have no right to share in such award. Current rent shall be apportioned as of the date of such termination. If any condemnation proceeding shall be instituted in which it is sought to take or damage any part of the Building, or the land under it, or if the grade of any street or alley adjacent to the Building is changed by any competent authority and such change of grade makes it necessary or desirable to remodel the Building to conform to the changed grade, the Lessor shall have the right to cancel this lease upon not less than ninety days' notice prior to the date of cancellation designated in the notice. No money or other consideration shall be payable by the Lessor to the Lessee for the right of cancellation, and the Lessee shall have no right to share in the condemnation award or in any judgment for damages caused by the closure of grade.

15. Lessor's Remedies: All rights and remedies of the Lessor herein enumerated shall be cumulative, and none shall exclude any other right or remedy allowed by law.

(a) If any voluntary or involuntary petition or similar pleading under any section or sections of any bankruptcy act shall be filed by or against the Lessee, or any voluntary or involuntary proceeding in any court or tribunal shall be instituted to declare the Lessee insolvent or unable to pay the Lessee's debts, and in the case of an involuntary petition or proceeding, the petition or proceeding is not dismissed within thirty days from the date it is filed, the Lessor may elect, but is not required, and with or without notice of such election, and with or without entry or other action by the Lessor, to forthwith terminate this lease, and in such event neither the Lessee nor any person claiming through or under the Lessee or by virtue of any statute or of an order of any court shall be entitled to recover damages in an amount equal to the then present worth of the rent reserved for the balance of the stated term hereof, less the fair rental value of the premises for the residue of the stated term.

(b) If the Lessee defaults in the payment of rent, and the Lessee does not cure the default within ten days after demand for payment of such rent, or if the Lessee defaults in the prompt and full performance of any other provision of this lease, and the Lessee does not cure the default within twenty days (forthwith if the default involves a hazardous condition) after written demand by the Lessor that the default be cured unless the default involves a hazardous condition, which shall be cured forthwith upon the Lessor's demand, or if the leasehold interest of the Lessee be levied upon under execution or be attached by process of law, or if the Lessee makes an assignment for the benefit of creditors, or if a receiver be appointed for any property of the Lessee, or if the Lessor abandons the premises, then and in any such event the Lessor may, if the Lessor so elects but not otherwise, and with or without notice of such election and with or without any demand whatsoever, either forthwith terminate this lease and the Lessee's right to possession of the premises or, without terminating this lease, forthwith terminate the Lessee's right to possession of the premises.

(c) Upon any termination of this lease, whether by lapse of time or otherwise, or upon any termination of the Lessee's right to possession without termination of the lease, the Lessee shall surrender possession and vacate the premises immediately, and deliver possession thereof to the Lessor, and hereby grants to the Lessor full and free license to enter into and upon the premises in such event with or without process of law and to repossess the Lessor of the premises as of the Lessor's former estate and to expel or remove the Lessee and any others who may be occupying or within the premises and to remove any and all property therefrom, without being deemed guilty in any manner of trespass, eviction or forcible entry or detainer, and without relinquishing the Lessor's right to rent or any other right given to the Lessor hereunder or by operation of law.

(d) If the Lessee abandons the premises or otherwise entitles the Lessor so to elect, and the Lessor elects to terminate this lease, then the Lessee shall be liable for and shall pay to the Lessor, as damages, all rent and other sums required hereunder to be paid by the Lessee for the remainder of the stated term, plus the cost of any cleaning, redecorating and repairs reasonably necessary or desirable to condition the premises for such reletting, plus all brokerage commissions, advertising expenses and expenses of keeping the premises in good order while they are vacant, all of which amounts shall be due and payable by the Lessee in one lump sum on demand; and if the consideration so collected from any such reletting is more than sufficient to pay the full amount of the rent reserved hereunder for the remainder of the stated term, and all of the costs and expenses of the Lessor, at the end of the stated term of the lease, shall account for the surplus to the Lessee.

(e) The Lessee hereby irrevocably constitutes and appoints any attorney of any court to be the true and lawful attorney of the Lessee, and, in the name, place and stead of the Lessee, to appear for and on behalf of the Lessee in any and all actions which may be brought for possession under, without terminating the lease, by the Lessor against the Lessee, to waive the issuance and service of process and trial by jury, and, from time to time, to confess judgment or judgments in favor of the Lessor and against the Lessee for any rent and interest thereon due hereunder by the Lessee to the Lessor and for costs of suit and for a reasonable attorney's fee in favor of the Lessor to be fixed by the court, and to release all errors that may occur or be committed in any such actions, including the issuance of executions on any such judgment, and to stipulate that no appeal shall be prosecuted from such judgment or judgments, or that no proceedings in chancery or otherwise shall be had in connection therewith, and to interpose in any such proceedings such defenses or counterclaims or any execution issued thereon or with any supplemental proceedings taken by the Lessor to collect the amount of any such judgment or judgments, and to consent to the prosecuting any judgment or decree in favor of the Lessor and against the Lessee may issue forthwith.

(f) Any and all property which may be removed from the premises by the Lessor pursuant to the authority of the lease or of law, to which the Lessee is or may be entitled, may be handled, removed or stored by the Lessor at the risk, cost and expense of the Lessee, and the Lessor shall not be responsible in any event for the value, preservation or adequacy thereof. The Lessee shall pay to the Lessor, upon demand, any and all expenses incurred in such removal and all storage charges against such property so long as the same shall be in the Lessor's possession or under the Lessor's control. Any such property of the Lessee not removed from the premises or retaken from storage by the Lessee within thirty days after the end of the term, however terminated, shall be presumed to have been conveyed by the Lessee to the Lessor under this lease as a bill of sale without further payment or credit by the Lessor to the Lessee.

(g) The Lessee shall pay upon demand all the Lessor's costs, charges and expenses, including fees of counsel, agents and others retained by the Lessor, incurred in enforcing the Lessee's obligations hereunder or incurred by the Lessor in any litigation, negotiation or transaction in which the Lessee causes the Lessor, without the Lessor's fault, to become involved or concerned.

16. Subordination of Lease: The rights of the Lessee under this lease shall be and are subject and subordinate at all times to the lien of any mortgage or mortgages now or hereafter in force against the Building or the underlying leasehold estate, if any, and to all advances made or hereafter to be made upon the security thereof, and the Lessee shall execute such further instruments subordinating this lease to the lien or liens of any such mortgage or mortgages as shall be requested by the Lessor.

17. Notices: In every instance where it shall be necessary or desirable for the Lessor to serve any notice or demand upon the Lessee, it shall be sufficient (a) to deliver or cause to be delivered to the Lessee a written or printed copy thereof, or (b) to send a written or printed copy thereof by registered mail in the United States certified or express mail postage prepaid addressed to the Lessee at the demised premises, in which event the notice or demand shall be deemed to have been served at the time the copy is posted, whether actually received or not. Any notice or demand which the Lessee is required or desires to serve upon the Lessor may be delivered to the Lessor at the place at which the Lessee is then paying rent, or may be sent by registered mail addressed to the Lessor at the last address of the Lessor for which the Lessee has received actual notice. Any notice or demand shall be deemed to have been served at the time a copy thereof is left or affixed. All notices or demands shall be signed by or on behalf of the Lessor.

18. Miscellaneous: (a) No receipt of money by the Lessor from the Lessee after the termination of this lease or after the service of any notice or after the commencement of any suit, or after final judgment for possession of the premises shall reinstate, reinstate, continue or extend the term of this lease or affect any such notice, demand or suit.

(b) No waiver of any default of the Lessee hereunder shall be implied from any omission by the Lessor to take any action on account of such default if such default persists or be repeated, and no express waiver shall affect any default other than the default specified in the express waiver and that only for the time and to the extent therein stated. The invalidity or unenforceability of any provision hereof shall not affect or impair any other provision.

(c) In the absence of fraud, no person, firm or corporation, or the heirs, legal representatives, successors and assigns, executors and administrators of any of them, shall be liable upon or under this lease unless the same be in writing and signed by the party to be charged or by his duly authorized agent, and no agent, trustee or any other representative shall be held individually liable hereunder for any losses or costs whatsoever.

(d) The words "Lessor" and "Lessee" wherever used in this lease shall be construed to mean Lessors or Lessees in all cases where there is more than one lessor or lessee, and the necessary grammatical changes required to make the provisions hereof apply either to corporations or individuals, men or women, shall in all cases be assumed as though in each case fully expressed.

19. It is further understood and agreed that the tenant shall not be billed for any electricity consumed on the premises.

20. It is mutually agreed and understood by and between the parties hereto that the remuneration mentioned in this lease is payable solely from funds when made available by the Federal Government.

21. Either party may cancel this lease by thirty days' notice.

(Signatures former omitted)

(a) Each provision hereof shall extend to and shall, as the case may require, bind and inure to the benefit of the Lessor and the Lessee and their respective heirs, legal representatives, successors and assigns, and the event the lease has been assigned with the consent of the Lessor.

(b) The headings of the several articles of this instrument are inserted for convenience only and do not limit or construe the contents of the sections.

(c) Submission of the instrument for examination does not constitute a reservation of or option for the premises. The instrument becomes effective as a lease upon execution and delivery by both Lessor and Lessee.

(d) All amounts (other than rent) owed by the Lessee to the Lessor hereunder shall be paid within ten days from the date the Lessor renders statements of amount therefor and shall bear interest at the rate of 7% per annum thereafter until paid.

(e) Provisions typed on the back of this lease and signed by the Lessor and the Lessee and all riders attached to this lease and signed by the Lessor and the Lessee are hereby made a part of this lease as though inserted at length in this lease.

(f) If the Lessee shall occupy the premises prior to the beginning of the term of this lease with the Lessor's consent, all the provisions of this lease shall be in full force and effect as soon as the Lessee occupies the premises. Rent for any period prior to the beginning of the term of this lease shall be fixed by agreement between the Lessor and the Lessee.

2. Service: The Lessor shall provide: (a) **Janitor Service** in and about the premises, Saturdays, Sundays and holidays excepted. The Lessee shall not provide any janitor service without the Lessor's written consent. If the Lessor's consent be given, such janitor service shall be subject to the Lessor's supervision but at the Lessee's sole responsibility. (e) **Electricity** if and so long as the Lessor shall generate or distribute electrical light and power in the Building. So long as the Lessor provides electricity in the Building, the Lessee shall obtain all current used in the premises from the Lessor and pay the Lessor's charges therefor, within ten days after the rendering of each statement of account unless otherwise specified in the Lessor's statement of account. The Lessee's failure to pay promptly the Lessor's charges for electricity shall entitle the Lessor, upon not less than ten days' notice, to discontinue such electricity to the Lessee, and no such discontinuance shall be deemed an eviction or disturbance of the Lessee's use of the premises or render the Lessor liable for damages or relieve the Lessee from performance of the Lessee's obligations. Upon not less than thirty days' notice, the Lessor may cease to furnish electricity to the Lessee without any responsibility to the Lessee except to connect, within the thirty day period, the electric wiring system of the premises with another source of supply of electricity. Electrical service may be changed, upon thirty days' notice, from direct current to alternating current, without liability of the Lessor to the Lessee. All electricity used during janitor service, alterations and repairs in the premises shall be paid for by the Lessee.

The Lessor does not warrant that any of the services above mentioned will be free from interruptions caused by repairs, renewals, improvements, alterations, strikes, lockouts, accidents, inability of the Lessor to obtain fuel or supplies, or other cause or causes beyond the reasonable control of the Lessor, and any such interruption of service shall never be deemed an eviction or disturbance of the Lessee's use and possession of the premises or any part thereof, or render the Lessor liable to the Lessee for damages, or relieve the Lessee from performance of the Lessee's obligations under this lease.

3. Lessor's Title: The Lessor's title is and always shall be paramount to the title of the Lessee, and nothing herein contained shall empower the Lessee to do any act which can, shall or may encumber the title of the Lessor.

4. Certain Rights Reserved to the Lessor: The Lessor reserves the following rights: (a) to change the name or street address of the Building without notice or liability of the Lessor to the Lessee; (b) to install and maintain a sign or signs on the exterior of the Building; (c) to have access for the Lessor and the other tenants of the Building to any mail chutes located on the premises according to the rules of the United States Post Office; (d) to designate all sources furnishing sign painting and lettering, ice, drinking water, towels and other similar services, and to approve the weight, size and location of safes and other heavy articles in the Building and the premises so as not to injure or overload the Building or the premises; (e) to exclude canvassers, solicitors and peddlers from the Building; (f) to constantly have pass keys to the premises; (g) to grant to anyone the exclusive right to conduct any particular business or undertaking in the Building; (h) to exhibit the premises to others and to display "For Rent" signs on the premises, (i) to take any and all measures, including inspections, repairs, alterations, additions and improvements to the premises or to the Building, as may be necessary or desirable for the safety, protection or preservation of the premises or the Building or the Lessor's interests, or as may be necessary or desirable in the operation of the Building.

The Lessor may enter upon the premises and may exercise any or all of the foregoing rights hereby reserved without being deemed guilty of an eviction or disturbance of the Lessee's use or possession and without being liable in any manner to the Lessee.

5. Default Under Other Lease: If the term of any lease, other than this lease, made by the Lessee for any premises in the Building shall be terminated or terminable after the making of this lease because of any default by the Lessee under such other lease, such fact shall empower the Lessor, at the Lessor's sole option, to terminate this lease by notice to the Lessee.

6. Waiver of Certain Claims: Neither the Lessor nor the Lessor's agents, servants, employees, officers or directors shall be liable, and the Lessee waives all claims for damage to person or property sustained by the Lessee or by any occupant of the Building or premises or by any other person resulting from the Building or any part of it or any equipment or appurtenances becoming out of repair, or resulting from any accident in or about the Building, or resulting directly or indirectly from any act or neglect of any tenant or occupant of the Building or of any other person. This Section 6 shall apply especially, but not exclusively, to damage caused by water, snow, frost, steam, excessive heat or cold, sewage, gas, odors or noise or the bursting or leaking of pipes or plumbing fixtures, and shall apply equally whether any such damage results from the act or neglect of other tenants, occupants or servants of the Building or of any other person, and whether such damage be caused or result from any thing or circumstance above mentioned or referred to, or any other thing or circumstance whether of a like nature or of a wholly different nature. If any such damage result from any act or neglect of the Lessee, the Lessor may, at the Lessor's option, repair such damage or cause it to be repaired, and the Lessee shall thereupon pay to the Lessor the total cost of such repairs and damages both to the Building and to the tenants thereof. All personal property belonging to the Lessee or any occupant of the premises that is in the Building or the premises shall be there at the risk of the Lessee or such other person only, and the Lessor shall not be liable for any damage thereto or the theft or misappropriation thereof.

7. Holding Over: If the Lessee retains possession of the premises or any part thereof after the termination of the term by lapse of time or otherwise, the Lessee shall pay the Lessor rent at double the rate specified in Section 1 for the time the Lessee thus remains in possession, and in addition thereto, shall pay the Lessor all damages sustained by reason of the Lessee's retention of possession. If the Lessee remains in possession of the premises or any part thereof, after the termination of the term by lapse of time or otherwise, such holding over shall, at the election of the Lessor expressed in a written notice to the Lessee and not otherwise, constitute a renewal of this lease for one year, the provisions of this Section do not waive the Lessor's rights of reentry or any other right hereunder.

8. Assignment and Subletting: The Lessee shall not (a) assign or convey this lease or any interest under it; (b) allow any transfer hereof or any lien upon the Lessee's interest by operation of law; (c) sublet the premises or any part thereof, or (d) permit the use or occupancy of the premises or any part thereof by any one other than the Lessee.

9. Condition of Premises: The Lessee's taking possession shall be conclusive evidence as against the Lessee that the premises were in good order and satisfactory condition when the Lessee took possession. No promise of the Lessor to alter, remodel or improve the premises or the Building and no representation respecting the condition of the premises or the Building have been made by the Lessor to the Lessee, unless the same is expressly set forth in this lease. The Lessee does not grant any rights to light or air over property, except over public streets kept open by public authority. At the termination of this lease by lapse of time or otherwise, the Lessee shall return the premises in as good condition as when the Lessee took possession, ordinary wear and loss by fire or other casualty excepted. The Lessee shall restore the premises to such condition and the Lessee shall pay the cost thereof. The Lessee may remove any floor covering laid by the Lessee, provided (a) the Lessee also removes all marks, paste, glue, fixtures and other vestiges of the floor covering, and restores the floor surfaces to the condition existing before such floor covering was laid, or (b) the Lessee pays to the Lessor, upon request, the cost of restoring the floor surfaces to such condition. The Lessee shall not remove the Lessee's floor coverings, radiator covers, Venetian blinds, window ventilators and other like equipment from the premises prior to the end of the term, the Lessee shall be conclusively presumed to have abandoned the same and title thereto shall thereby pass to the Lessor without payment or credit by the Lessor to the Lessee.

10. Alterations: The Lessee shall not make any alterations in or additions to the premises without the Lessor's advance written consent in each and every instance. The Lessor's decision to refuse such consent shall be conclusive. If the Lessor consents to such alterations or additions, before commencement of the work or delivery of any materials onto the premises or into the Building, the Lessee shall furnish the Lessor with plans and specifications, names and addresses of contractors, notice of contracts, necessary permits and indemnification by the Lessee and sometimes satisfactory to the Lessor, and waivers of lien against any and all claims, costs, damages, liabilities and expenses which may arise in connection with the alterations or additions. Whether the Lessee furnishes the Lessor the foregoing or not, the Lessee hereby agrees to hold the Lessor harmless from any and all liabilities of every kind and description which may arise out of or be connected in any way with said alterations or additions. Before commencing any work relating to alterations or additions authorized by the Lessor, the Lessee shall furnish the Lessor with certificates of insurance from all contractors performing labor or furnishing materials insuring the Lessor against any and all liabilities which may arise out of or by reason of any work or labor done with said additions or alterations. The Lessee shall pay the cost of all such alterations and additions and also the cost of decorating the premises occasioned by such alterations and additions. Upon completion of any alterations or additions, the Lessee shall furnish the Lessor with contractors' affidavits and full and final waivers of lien and receipted bills covering all labor and materials expended and used. All alterations and additions shall comply with all insurance requirements and with all ordinances and regulations of the City of Chicago or any department or agency thereof, and with the requirements of all statutes and regulations of the State of Illinois or of any department or agency thereof. All alterations and additions shall be constructed in a good and workmanlike manner and only good grades of materials shall be used. The Lessee shall permit the Lessor to supervise construction operations in connection with alterations or additions if the Lessor requests to do so. All additions, hardware, non-trade fixtures and improvements, of any kind or nature, made or placed by the Lessee in the premises, whether placed there by the Lessee or by the Lessor, shall, unless the Lessor requests their removal, become the Lessor's property and shall remain upon the premises at the termination of this lease by lapse of time or otherwise without compensation or allowance or credit to the Lessee. If, upon the Lessor's request, the Lessee does not remove said additions, hardware, non-trade fixtures and improvements, the Lessor may remove the same and the Lessee shall pay the cost of such removal to the Lessor upon demand. If the Lessee does not remove the Lessee's furniture, machinery, trade fixtures and all other items of personal property of any kind and description prior to the end of the term, however ended, the Lessee shall be conclusively presumed to have conveyed the same to the Lessor under this lease as a bill of sale without further payment or credit by the Lessor to the Lessee.

11. Use of Premises: (a) The Lessee shall occupy and use the premises during the term for the purpose above specified and none other; (b) the Lessee shall not sell, peddle or offer for sale on the premises or in the Building any article or thing except those articles and things essentially connected with the stated use of the premises without the advance written consent of the Lessor; (c) the Lessee will not make or permit to be made any use of the premises which, directly or indirectly is forbidden by public law, ordinance or governmental regulation or which may be dangerous to life, limb or property, or which may invalidate or increase the premiums for any policy of insurance carried on the Building or covering its operations; (d) the Lessee shall not display, inscribe, print, paint, maintain or affix on any place in or about the Building any sign, notice, legend, inscription, figure or advertisement except on the door of the premises and on the Directory Boards, and then only such name or names and matter, and in such color, size, style, place and material, as shall first have been approved by the Lessor in writing; (e) the Lessee shall not use the premises for business, profession or activities of the Lessee conducted in the Building in any manner which violates the letter or spirit of any code of ethics adopted by any recognized association or organization pertaining to such business, profession or activities, and shall not use the name of the Building for any purpose other than that of business address of the Lessee, and shall never use any picture or likeness of the Building in any circulars, notices, advertisements or correspondence without the Lessor's written consent in each instance. Any violation of this paragraph may, in the Lessor's sole discretion, be deemed a breach of this lease; (f) the Lessee shall not observe, or use for storage, or for any purpose other than ingress and egress, the sidewalks, entrances, passages, courts, corridors, vestibules, halls, elevators and stairways of the Building; (g) no bicycle or other vehicle and no dog or other animal or bird shall be brought or permitted to be in the Building or any part thereof; (h) the Lessee shall not make or permit any noise or odor that is objectionable to other occupants of the Building or to the public in the opinion of the Lessor, and shall not create or maintain a nuisance thereon, and shall not disturb, solicit or canvass any occupant of the Building, and shall not do any act tending to injure the reputation of the Building; (i) the Lessee shall not install any piano, piano-player or other musical instrument, or radio or television set in the Building, or any antennae, aerial wires or other equipment inside or outside the Building, without, in each and every instance, prior approval in writing by the Lessor. The Lessee shall not be liable for any damages caused by its act or neglect if the Lessor or a tenant has recovered the full amount of the damages from insurance and the insurance company has waived all rights of subrogation against the Lessee. All property belonging to the Lessee or any occupant of the premises that is in the Building or the premises shall be there at the risk of the Lessee or other persons only, and the Lessor shall not be liable for damage to or theft or misappropriation thereof.

7. Holding Over: If the Lessee retains possession of the premises or any part thereof after the termination of the term by lapse of time or otherwise, the Lessee shall pay the Lessor rent at double the rate of rental specified in Section 1 for the time the Lessee thus remains in possession, and in addition thereto, the Lessee shall pay the Lessor all damages sustained by reason of the Lessee's retention of possession. If the Lessee remains in possession of the premises, or any part thereof, after the termination of the term by lapse of time or otherwise, the Lessee shall return the premises to the Lessor in as good condition as when the Lessee took possession, ordinary wear and loss by fire excepted, failing which the Lessor may restore the premises to such condition and the Lessee shall pay the cost thereof. The Lessee may remove any floor covering laid by the Lessee, provided (a) the Lessee also removes all nails, tacks, paper, glue, bases and other vestiges of the floor covering, and restores the floor surface to the condition existing before such floor covering was laid, and (b) the Lessee does not remove, upon request, the cost of restoring the floor surface to such condition. If the Lessee does not remove the Lessee's floor coverings, from the premises prior to the end of the Term, the Lessee shall be conclusively presumed to have abandoned the same and title thereto shall thereby pass to the Lessor without payment or credit by the Lessor to the Lessee.

The Lessee shall remove from the premises all furniture, machinery, safe or safes, trade fixtures and other items of personal property of every kind and description from the premises prior to the end of the term, however ended. The Lessee shall not keep anything in the premises except as now or hereafter permitted by the Fire Department, Board of Fire Underwriters, Fire Insurance Rating Organization or other authority having jurisdiction, and then only in such manner and such quantity so as not to increase the rate for fire insurance applicable to the Building, nor use the premises in a manner which will increase the insurance rate for the Building or any property located therein over that in effect prior to the commencement of the Lessee's occupancy. The Lessee shall not install any electrical equipment that overloads the lines in the Building or that may interfere with the use thereof by other tenants or the operation of the Building. The Lessee shall not install, use or operate in the premises any electrical equipment that has not been approved by Underwriters' Laboratories and bears their seal of approval. The Lessor may limit the use of electrical current which may be used in the premises to such capacity. The Lessor's consent to the installation of electric equipment shall not relieve the Lessee from the obligation not to use more electricity than such safe capacity. (aa) The Lessee shall not lay linoleum or other similar floor covering so that such floor covering shall come in direct contact with the floor of the premises. If linoleum or other similar floor covering is used, an interlayer of builder's deadening felt shall first be affixed to the floor by paste or other material soluble in water. At any time or times, the Lessee, either voluntarily or pursuant to governmental requirement, may, at the Lessee's own expense, make repairs, alterations or improvements in or to the Building or any part thereof, including the premises, and, during operations, may close entrances, doors, corridors, elevators or other facilities, all without any liability to the Lessor by reason of interference, inconvenience or annoyance. The Lessor shall not be liable to the Lessee for any expense, injury, loss or damage resulting from work done in or upon, or the use of, any adjacent or nearby Building, land, street or alley. The Lessee shall pay the Lessor for overtime and for any other expense incurred in event repairs, alterations, decorating or other work in the premises are not made during ordinary business hours at the Lessee's request.

The Lessee shall have no right to share in such award. Current rent shall be apportioned as of the date of such termination. If any condemnation proceeding shall be instituted in which it is sought to take or damage any part of the Building, or the land under it, or if the grade of any street or alley adjacent to the Building is changed by any competent authority and such change of grade makes it necessary or desirable to remodel the Building to conform to the changed grade, the Lessor shall have the right to cancel this lease upon not less than ninety days' notice prior to the date of cancellation designated in the notice. No money or other consideration shall be payable by the Lessor to the Lessee for the right of cancellation, and the Lessee shall have no right to share in the condemnation award or in any judgment for damages caused by the change of grade.

(b) If the Lessee defaults in the payment of rent, and the Lessee does not cure the default within ten days after demand for payment of such rent, or if the Lessee defaults in the prompt and full performance of any other provision of this lease, and the Lessee does not cure the default within twenty days (forthwith if the default involves a hazardous condition) after written demand by the Lessor that the default be cured, or if the Lessee defaults in the prompt and full performance of any other provision of this lease and the Lessee does not cure the default within twenty days (forthwith if the default involves a hazardous condition, which shall be cured forthwith upon the Lessor's demand, or if the leasehold interest of the Lessee be levied upon under execution or be attached by process of law, or if the Lessee makes an assignment for the benefit of creditors, or is thereafter be appointed for any property of the Lessee, or if the Lessee abandons the premises, then and in any such event the Lessor may, if the Lessor so elects but not otherwise, and with or without notice of such election and with or without demand or notice, forthwith terminate this lease and the Lessee's right to possession of the premises or, without terminating this lease, forthwith terminate the Lessee's right to possession of the premises.

(c) Upon any termination of this lease, whether by lapse of time or otherwise, or upon any termination of the Lessee's right to possession without termination of the lease, the Lessee shall surrender possession and vacate the premises immediately, and deliver possession thereof to the Lessor, and hereby grants to the Lessor full and free license to enter into and upon the premises in such event and to repossess the Lessor of the premises as of the Lessor's former estate and to expel or remove the Lessee and any others who may be occupying or within the premises and to remove any and all property therefrom, using such force as may be necessary without being deemed guilty of trespass, eviction or forcible entry or detainer, and without relinquishing the Lessor's rights to rent or any other right given to the Lessor hereunder or by operation of law.

(d) If the Lessee abandons the premises or otherwise entitles the Lessor so to elect, and the Lessor elects to terminate the Lessee's right to possession only, without terminating the lease, the Lessor may, at the Lessor's option enter into the premises, remove the Lessee's signs and other evidences of tenancy, and take and hold possession thereof as in Paragraph (c) of this Section 15 without such entry and possession terminating the lease or releasing the Lessee, in whole or in part, from the Lessee's obligation to pay the rent hereunder for the full term, and in any such case the Lessee shall pay forthwith to the Lessor, if the Lessor so requires, a sum equal to the entire amount of the rent specified in Section 1 of this lease for the residue of the stated term plus any other sums then due hereunder. Upon and after entry into possession without termination of the lease, the Lessor may, but need not, relet the premises or any part thereof for the account of the Lessee to any person, firm or corporation other than the Lessee for such rent, for such time and upon such terms as the Lessor in the Lessor's sole discretion shall determine, using such force as may be necessary without being deemed guilty of trespass, eviction or forcible entry or detainer, and without relinquishing the Lessor's rights to rent or any other right given to the Lessor hereunder or by operation of law.

(e) If the Lessor defaults in the performance of any of the covenants or conditions hereof, and the Lessee obtains a judgment for damages by reason of such default, the Lessor's liability under such judgment shall extend to and be satisfied only out of the Lessor's interest in the Building and the Lessee shall not look to any other property or assets of the Lessor or the assets of any partner, agent or beneficiary of the Lessor in seeking to enforce such judgment.

16. Subordination of Lessee's Rights: The rights of the Lessee under this lease shall be and are subject and subordinate to all mortgages and trust deeds which may now or hereafter in force against the Building or the subdivision of which the Building is a part, and to all renewals, modifications, consolidations, replacements and extensions thereof, and the Lessee shall execute such further instruments subordinating this lease to the lien or liens of any such mortgages or mortgagees as shall be required by the Lessor.

17. All notices or demands shall be signed by or on behalf of the Lessor.

18. Miscellaneous: The remedy or remedies of the Lessor for the violation of any of the terms, covenants and conditions of this lease or after the service of any notice or after the commencement of any suit, or after final judgment for possession of the premises shall be cumulative and shall in no way affect, impair or bar any other right or remedy of the Lessor.

(b) No waiver of any default of the Lessee hereunder shall be implied from any omission by the Lessor to take any action on account of such default if such default persists or is repeated, and no express waiver shall affect any default other than the default specified in the express waiver and that only for the time and to the extent therein stated. The acceptance by the Lessor of rent or any payment hereunder shall not affect or impair any other or subsequent default.

(c) In the absence of fraud, no person, firm or corporation, or the heirs, legal representatives, successors and assigns, respectively, thereof, executing this lease as agent, trustee or in any other representative capacity shall ever be deemed or held individually liable hereunder for any reason or cause whatsoever.

(d) The words "Lessor" and "Lessee" wherever used in this lease shall be construed to mean the Lessor or Lessee in all cases where there is more than one lessor or lessee, and the necessary grammatical changes required to make the provisions hereof apply either to corporations or partnerships or individuals, men or women, shall in all cases be assumed as though in each case fully expressed.

(e) The Lessor shall have the right to terminate this lease on the thirtieth day of April in each year during the term hereof, or any extension or renewal thereof, by giving written notice to the Lessee of its election so to do. If the Lessor shall exercise such election, the Lessee shall have a period of sixty-six and two-thirds percent or more of the Lessor's capital stock (if the Lessee is a corporation), or if the Lessee does not own a majority of the stock (if any), or is not a corporation, then a majority of the persons who own the beneficial interest under the Lessee's trust or other collective body of the Lessee shall have executed a written agreement prior to the thirtieth day of April next succeeding the date of the notice. No money or other consideration shall be payable by the Lessor to the Lessee for this right and the right is reserved to the Lessor shall issue to all purchasers, mortgagees, lessees, transferees and grantees, as the case may be and is in addition to all other rights of the Lessor.

Rent for any period prior to the beginning of the term of this lease shall be fixed by agreement between the Lessor and the Lessee.

19. Escalator Provision: (a) The rental reserved herein is based upon the operating expenses, as hereinafter defined, for the calendar year immediately prior to the calendar year in which the term hereof commences (hereinafter referred to as the "base year"). The following is the report of the Commissioner of Health referred to in the foregoing committee report:

Report Regarding Lead Poisoning Program—Chicago Board of Health—April 5, 1968, for the City Council Committee on Health.

Honorable members of the City Council, the Chicago Board of Health has done pioneer work in the pinpointing of the use of lead bearing paints in residential housing as a factor in the development of lead intoxication in children.

It was as a result of these efforts and additional efforts upon the part of the United States Public Health Service that the nation's paint manufacturers voluntarily adopted a policy limiting the use of lead to paints designed for outdoor use.

Today every can of lead bearing paint sold bears a caution statement indicating that lead bearing paints should not be used for interior coatings of any kind.

Lead poisoning in children may result from the ingestion of cracked plaster and/or flaking or peeling paint by the child who is not properly supervised. Notwithstanding the fact that interior wall coatings have for several years been marketed as being practically lead free, almost all residential structures built prior to 1950 have at one time or another been painted with a coating containing lead.

In housing occupied by children who suffer from pica (a craving for oral sampling of unusual materials) the availability to the child of peeling paint or plaster chips may present an opportunity for lead intake into the body and lead poisoning is usually the result of this activity on the part of the child.

In 1962 the department carried out a pilot survey of 1,500 children in order to determine a suitable screening procedure. In February, 1963, a urine lead screening program was initiated in the City of Chicago. This service was available in all of the Chicago Board of Health Infant Welfare Stations for children in the pre-school and school age groups.

In January 1966, it was decided to expand significantly the urine lead screening program by visiting every family in the high-lead incidence areas in the city and collecting urine specimens from children under seven years of age. Working with the Chicago Committee on Urban Opportunity, it was decided to utilize the community representatives, full-time employees of the CCUO, to carry out the screening program. Working out of their respective urban progress centers, the representatives made a door-to-door canvass of their assigned districts. They distributed health literature, described the causes and symptoms of lead intoxication, and collected urine specimens. During the first five months of the expanded urine lead screening program approximately 30,000 specimens were collected.

Due to the large number of false positives in urine lead specimens, it was felt that a blood lead screening program would prove more realistic and effective. Instead of collecting urine specimens, the community representatives make an appointment for a child to have a blood specimen drawn by a Chicago Board of Health physician who is assigned to an urban progress center. The centers and their locations are as shown on the attached sheet (printed at end of this report).

The blood lead screening program is carried out at the centers during week day evenings and on Saturdays. Children are transported to the centers by station wagons, screened, and returned to their homes. The following morning Board of Health drivers pick up the blood specimens and deliver them to our laboratory for analysis.

For the period July 31, 1966 through March 25, 1968, a total of 43,133 bloods have been drawn. The names and addresses of those children found to have elevated blood lead levels are reported to the Building Department. Similar information with regard to positive cases of lead poisoning reported to the Board of Health by Chicago hospitals is likewise sent to the Building Department for such action as is deemed necessary.

In October 1966, the Board of Health opened a Diagnostic and Treatment Center at the Municipal Contagious Disease Hospital. Children having an elevated blood lead level following the mass screening are referred to the Diagnostic and Treatment Clinic at Municipal Contagious Disease Hospital. The object of the screening program is to find the child with elevated blood lead and to treat him before he develops an acute or chronic lead poisoning which manifests itself with convulsions and comas when acute, or may result in mental retardation when chronic.

Two thousand five-hundred (2,500) children came to the clinic in 1967, of which over 25 per cent were selected for treatment. A full investigation is made of each case before treatment is instituted, and every effort is made to determine whether the source of the lead is inside or outside the home. Complete laboratory and X-ray studies are done on the child and, where indicated, the child is treated with agents designed to remove lead from the body. All procedures used are in conformity with the criteria established by the American Academy of Pediatrics dealing with lead intoxication.

The solution to the problem of lead poisoning is most difficult, none the less, it is our feeling that the real solution lies in case finding and treatment coupled with an intensive education program designed to acquaint our citizens with this hazard to children, and to point out the parent or guardian's responsibility in preventing children from ingesting lead or indeed any other toxic material which may be commonly found in the home. Well supervised children cannot habitually put foreign substances into their mouths, and ordinarily the ingestion of paint or plastered chips must be carried out over a period of time for the child to take in sufficient lead to constitute a hazard.

Congratulations Extended Jay McMullen and William F. Mooney on Award for Journalistic and Civic Achievement.

A proposed resolution reading as follows:

WHEREAS, The 1968 winners of the Jacob Scher award for excellence in investigative reporting were Jay McMullen and William F. Mooney. They will receive their award on May 5, 1968 at the Guildhall in the Ambassador Hotel, Chicago. They were selected for their work on the city's sale of a small public park in the Old Town area to a private buyer at a price far below its value to the buyer. As a result of their work, the administration has reformed its appraisal procedure for sales of property owned by the City of Chicago, and although the sale was not set aside, the buyer increased his payment to the City of Chicago tenfold. Their work is an outstanding example of the value of a free press.

Now, Therefore, Be It Resolved by the City Council of Chicago, That the City of Chicago extends its congratulations to Jay McMullen and William F. Mooney for their award and expresses its appreciation to them for their outstanding journalistic and civic achievement.

Americans owe to this stouthearted, courageous man from Independence; and

WHEREAS, It has been said that at times some Americans might disagree with President Truman on a position he would take but at no time was it ever doubtful what position President Truman took; and

WHEREAS, Few men in history have had to make the momentous decisions which constantly confronted President Truman; and

WHEREAS, His personal and family life are symbolic of all that is good in the American tradition; and

WHEREAS, Harry S. Truman won the respect and admiration of the American people for his courage and fortitude and perseverance when many believed he stood alone; now, therefore,

Tribute Paid to Late Joseph D. Lohman.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, Almighty God, in His Infinite Wisdom, took the life of Joseph D. Lohman, former Sheriff of Cook County and Ex-Treasurer of the State of Illinois, on April 26, 1968, at 58 years of age; and

WHEREAS, Joseph Lohman was born in New York City on January 31, 1910. He was educated in the public schools of Denver, Colorado, was graduated from the University of Denver in 1930, receiving a bachelor of arts degree, earned a master's degree at the University of Wisconsin in 1931, and then did post-graduate work at the University of Chicago. He was a Senior Research Sociologist for the State of Illinois from 1934 to 1939. He joined the University of Chicago faculty as an instructor of sociology in 1939 and was Assistant Professor of Sociology from 1941 to 1945. In 1945 he became Associate Professor and Chairman of the Sociology Department at American University, Washington, D. C. and later was Associate Professor at the University of Wisconsin and visiting professor at several universities. As a result of his studies he wrote "The Police and Minority Groups", an early textbook for police on community relations. In 1952 President Truman appointed him to the National Capitol Planning Commission, which formulated a program of desegregation in the Nation's Capitol. During the Korean conflict, he served as a consultant to the Defense Department U. N. Command, for which he was awarded the Medal of Freedom in 1954. He was consultant to the Atomic Energy Commission, the Tennessee Valley Authority, the Illinois Selective Service System, and police departments of numerous cities. He wrote extensively for technical publications and was a frequent speaker at conferences on crime, police and other community problems; and

WHEREAS, Joseph Lohman entered public life in 1949 when former Governor Adlai E. Stevenson appointed him Chairman of the Division of Correction of the State of Illinois and in 1952 Chairman of the Illinois Parole and Pardon Board. He was elected Sheriff of Cook County in 1954 by a large plurality. As the County's first sociologist sheriff, his accomplishments were notable in juvenile delinquency prevention and the overhauling of the County Jail, with in-service training for guards, new hospital facilities and an adult education program. In 1958 Joseph Lohman became the Democratic candidate for State Treasurer and was elected to the Treasurer's office, in which he made an exceptional record. His sound fiscal policies increased the collection of interest on state funds deposited in Illinois banks and left a large surplus of unused appropriations. He resigned as State Treasurer in 1961 to become Dean of the School of Criminology at the University of California, a position he held at the time of his death; and

WHEREAS, Joseph Lohman was an energetic individual of reflective turn of mind and intellectual independence, who brought an extraordinary fund of scientific knowledge of human and political affairs developed at universities to bear in solving the numerous concrete problems posed by his positions in public office, and by this successful joining of theory with practice, he demonstrated a singular competence in governmental affairs, both city, county, state and national; now, therefore,

Be It Resolved, That the Mayor and members of the City Council of the City of Chicago, in meeting assembled this 8th day of May, 1968, hereby make public acknowledgement of their esteem for Joseph D. Lohman and their deep regret at his passing and extend to his bereaved family their most sincere sympathy; and

Be It Further Resolved, That a suitable copy of this resolution be presented to the family of Joseph D. Lohman.

Alderman Holman moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the foregoing proposed resolution. The motion *Prevailed.*

On motion of Alderman Holman (seconded by Aldermen Despres and Metcalfe) the foregoing proposed resolution was *Adopted,* unanimously by a rising vote.

Court Decisions.

Also communications from the Law Department addressed to the City Council, signed by Henry N. Novoselsky and Joseph N. Lascaro, Assistants Corporation Counsel and Marvin E. Aspen, Head of Appeals and Review Division, transmitting the following decisions, which were *Placed on File:*

Fred Bagat v. Police Board, et al., Illinois Appellate Court No. 52043. The Illinois Appellate Court on April 15, 1968 rendered an opinion in in the above entitled cause affrming a judgment of the Circuit Court of Cook County which had affirmed the decision of the Police Board of the City of Chicago, ordering the plaintiff's discharge from the City's Police Department. The plaintiff was charged and found guilty of three counts of "Neglect of Duty, Drinking Alcoholic Beverages while in Uniform, Conduct Unbecoming a Police Officer and Incompetence". Upon appeal, the plaintiff only challenged the propriety of the finding of "Drinking Alcoholic Beverages while in uniform" and the validity of Rule No. 371A, "Separation for Incompetence". In affirming the judgment of the Circuit Court, the Appellate Court noted that the unchallenged findings were sufficient to support the order of discharge and that examination of the record revealed that each of the Police Board's findings were supported by ample evidence.

Ulysses Murphy v. Police Board et. al., Illinois Appellate Court No. 50457. The Appellate Court on April 10, 1968 rendered an opinion in the above entitled cause affirming a judgment of the Circuit Court of Cook County which had affirmed a decision of the Police Board of the City of Chicago, ordering the plaintiff's discharge from the City's Police Department. Plaintiff's sole contention was that the hearing which led to the Board's discharge order was void for want of jurisdiction, due to the fact that the hearing was not conducted before the entire Board. In affirming the Circuit Court, the Illinois Appellate Court held that, under the present statute and the statute in effect at the time this hearing was had, the Board may properly designate a hearing officer to conduct such hearing.

Turner v. City of Chicago, Illinois Appellate Court No. 51514. The Illinois Appellate Court on April 15, 1968 rendered an opinion in the above entitled cause which reversed the judgment of the Circuit Court of Cook County and remanded the case for a new trial. The plaintiff filed his action against the City of Chicago for personal injuries which he sustained in a fall on a public sidewalk in the City of Chicago. At the close of the plaintiff's evidence, the Trial Court entered a finding for the City because of the plaintiff's failure to produce any medical testimony. The Illinois Appellate Court in reversing the judgment of the Circuit Court held that there is no requirement that a plaintiff produce medical testimony where the plaintiff clearly testifies to his injuries and the medical treatment he received.

Vernon Anundson et al., v. City of Chicago, etc. and Raymond P. Kaepplinger, Illinois Appellate Court No. 52100. The Circuit Court of Cook County on August 7, 1962 entered an order in the above entitled cause holding certain provisions of the Chicago Zoning Ordinance unconstitutional as applied to property at No. 5655 W. Fullerton Avenue. Construction of a building upon the premises was then begun, however, this building was to contain an auditorium capable of holding 600 persons and a roof garden capable of holding 250 persons, this not being provided for in the Circuit Court's decree. On May 4, 1966, Kaepplinger, an adjacent property owner, filed a petition seeking to vacate the previously entered decree for failure to conform thereto. This petition was denied and an instant appeal was taken from this order. On April 25, 1968, the Illinois Appellate Court rendered an opinion reversing the judgment of the Circuit Court with directions to enjoin further construction or use of the subject property until it conforms with the requirements of the applicable ordinances. The controversey in this case being the property owner and adjacent property owner, the City was a nominal party to this appeal.

5. **Defaults Under Other Lease:** If the term of any lease, other than this lease, made by the Lessee for any premises in the Building shall be terminated or terminable after the making of this lease because of any default by the Lessee under such other lease, such fact shall empower the Lessor, at the Lessor's sole option, to terminate this lease by notice to the Lessee.
6. **Waiver of Claims:** To the extent permitted by law, the Lessee releases the Lessor and the Lessor's agents and servants from and waives all claims for damage to person or property sustained by the Lessee or any occupant of the Building or premises resulting from the Building or premises or any part of either becoming out of repair, or resulting from any accident in or about the Building, or resulting directly or indirectly from any act or neglect of any tenant or occupant of the Building or of any other person, including the Lessor's agents and servants. This Section 6 shall apply especially, but not exclusively, to the flooding of basements or other subsurface areas, and to damage caused by refrigerators, sprinkling devices, air conditioning apparatus, water, snow, frost, steam, excessive heat or cold, falling plaster, broken glass, sewage, gas, odors or noise, or the bursting or leaking of pipes or plumbing fixtures, and shall apply equally whether any such damage results from the act or neglect of the Lessor or of the Lessee or of any other person or persons, and whether such damage be caused or result from any thing or circumstance above mentioned or referred to, or any other thing or circumstance, whether of a like nature or of a wholly different nature. If any such damage, whether to the demised premises or to the Building or any part thereof, or whether to the Lessor or to other tenants in the Building, result from any act or neglect of the Lessee or of the Lessee's agents, servants, employees or invitees, including such damage and the Lessee shall, upon demand by the Lessor, reimburse the Lessor for the total cost of such repairs. The Lessee shall not be liable for any damages caused by its acts or neglect if the Lessor or a tenant has received the full amount of the damages from insurance and the insurance company has waived in writing its right of subrogation against the Lessee. All property belonging to the Lessee or any occupant of the premises or the Building or in the premises shall be there at the risk of the Lessee or other person only, and the Lessor shall not be liable for damage thereto or theft or misappropriation thereof.
7. **Holding Over:** If the Lessee retains possession of the premises or any part thereof after the termination of the term by lapse of time or otherwise, the Lessee shall pay the Lessor rent at double the rate of rental specified in Section 1 for the time the Lessee thus retains possession, and subject to all other conditions, provisions and obligations of this lease insofar as the Lessee's retention of possession. If the Lessee remains in possession of the premises, or any part thereof, after the termination of the term by lapse of time or otherwise, such holding over shall, at the option of the Lessor, create a tenancy from month to month, but not a renewal of the lease for one year. The provisions of this Section do not waive the Lessor's rights of reentry or any other right hereunder.
8. **Assignment and Subletting:** The Lessee shall not (a) assign or convey this lease or any interest under it; (b) allow any transfer hereof or lien upon the Lessee's interest by operation of law; (c) sublet the premises or any part thereof, or (d) permit the use or occupancy of the premises or any part thereof by any one other than the Lessee.

The Lessee shall not alter, remodel or improve the premises or the Building and no representation respecting the condition of the premises or the Building have been made by the Lessor to the Lessee, unless the same is contained herein or made a part hereof. This lease does not grant any rights to light or air over property, except over public streets kept open by public authority. At the termination of the lease by lapse of time or otherwise, the Lessee will return the premises to the Lessor in as good condition as when the Lessee took possession, ordinary wear and loss by fire excepted, failing which the Lessor may restore the premises to such condition and the Lessee shall pay the cost thereof. The Lessee may remove any floor covering laid by the Lessee, provided (a) the Lessee also removes all nails, tacks, paper, glue, bases and other vestiges of the floor covering, and restores the floor surface to its condition existing before such floor covering was laid, and (b) the Lessee promptly repairs to the Lessor, upon request, the cost of restoring the floor surface to such condition. If the Lessee does not remove the Lessee's floor coverings, from the premises prior to the end of the term or of the Lessee's tenancy, the Lessor may remove the same and the Lessee shall pay the cost of such removal to the Lessor upon demand. If the Lessee does not request their removal, all such items shall be conclusively presumed to have been conveyed by the Lessee to the Lessor under this lease as a bill of sale without further payment or credit by the Lessor to the Lessee.
10. **Alterations:** The Lessee shall not make any alterations in or additions to the premises without the Lessor's advance written consent in each and every instance. The Lessor's decision to refuse consent shall be conclusive. If the Lessor consents to such alterations or additions, before commencement of the work or delivery of any materials onto the premises or into the Building, the Lessee shall furnish the Lessor with plans and specifications, names and addresses of contractors, copies of contracts, necessary permits and indemnification in form and amount satisfactory to Lessor and waivers of lien against any and all claims, costs, damages, liabilities and expenses which may arise in connection with the alteration or addition. All additions and alterations shall be installed by workmen reasonably satisfactory to the Lessor, using new, high-grade materials shall be used. Whether the Lessee furnishes the Lessor the foregoing or not, the Lessee hereby agrees to hold the Lessor harmless from any and all liabilities of every kind and description which may arise out of or be connected in any way with said alterations or additions. Before commencing any work in connection with alterations or additions, the Lessee shall furnish the Lessor with certificates of liability insurance and satisfactory evidence of coverage by the contractor insuring the Lessor against any and all liabilities which may arise out of or be connected in any way with said additions or alterations. The Lessee shall pay the cost of all such alterations and additions and also the cost of decorating the premises occasioned by such alterations and additions. Upon completing any alterations or additions, the Lessee shall furnish the Lessor with contractors' affidavits and full and final waivers of lien and receipted bills covering all labor and materials expended and used. All alterations and additions shall comply with all insurance requirements and with all ordinances and regulations of the City of Chicago or any department or agency thereof. All additions, hardware, non-trade fixtures and all improvements, temporary or permanent, in or upon the premises, whether placed there by the Lessee or by the Lessor, shall, unless the Lessor requests their removal, become the Lessor's property and shall remain upon the premises at the termination of this lease by lapse of time or otherwise without compensation or allowance or credit to the Lessee. If, upon the Lessor's request, the Lessee shall remove any of the additions, hardware, non-trade fixtures and improvements, the Lessor may remove the same and the Lessee shall pay the cost of such removal to the Lessor upon demand. The Lessee shall not remove the Lessor's furniture, machinery, safe or any trade fixtures and other items of personal property of every kind and description from the premises prior to the end of the term, however caused. If not so removed by the Lessor upon request, and if the Lessee fails to remove the same within 10 days after the Lessor may do so and the Lessee shall pay the cost of such removal to the Lessor upon demand. If the Lessor does not request their removal, all such items shall be conclusively presumed to have been conveyed by the Lessee to the Lessor under this lease as a bill of sale without further payment or credit by the Lessor to the Lessee.
11. **Use of Premises:** (a) The Lessee shall occupy and use the premises during the term for the purpose above specified and none other. The Lessee shall not use the premises for lodging, sell or offer for sale on the premises or in the Building any article or thing except those articles and things essentially connected with the stated use of the premises without the advance written consent of the Lessor. The Lessee will not permit or suffer the premises or any part thereof to be used in any manner or anything done or permitted to be done in or about the premises or the Building which will in any way endanger the life, limb, or property, or which may invalidate or increase the premium cost of any policy of insurance carried on the Building or covering its operations. (d) The Lessee shall not display, inscribe, print, paint, maintain or affix on any place in or about the Building any sign, notice, legend, direction, figure or advertisement, except of such character, design and size and in such place as shall first have been approved by the Lessor in writing. (e) The Lessee shall not advertise the business, profession or activities of the Lessee conducted in the Building in any manner which violates the letter or spirit of any code of ethics adopted by any recognized association or organization pertaining to such business, profession or activities, and shall not use the name of the Building for any purpose other than that of business address of the Lessee, and shall never use any picture or likeness of the Building in any circular, notice, advertisement or correspondence without the Lessor's express consent in writing. The use thereof, if permitted, shall be subject to restriction by the Lessor to the end that others shall not be disturbed or annoyed. (j) The Lessee shall not place or permit to be placed any article of any kind on the window ledges or on the exterior walls, and shall not throw or permit to be thrown any article or object from any window of the Building. The Lessee shall ascertain from the Lessor the maximum amount of electrical current which can safely be used in the demised premises, taking into account the capacity of the electric wiring in the Building and the premises and the needs of other tenants in the building and shall not use more than such safe capacity. The Lessor's consent to the installation of electric equipment shall not relieve the Lessee from the obligation not to use more electricity than such safe capacity. (u) The Lessee shall not lay linoleum or other similar floor covering so that such floor covering shall come in direct contact with the floor of the premises, and if linoleum or other similar floor covering is used, an interlinear of builder's deadening felt shall first be affixed to the floor by paste or other material soluble in water. Neither the Lessee nor the Lessor shall have any right to share in such award. Current rent shall be apportioned as of the date of such termination. If any condemnation proceeding shall be instituted during the term in which it is sought to take or damage any part of the Building, or the land under it, or if the grade of any street or alley adjacent to the Building is changed by any competent authority and such change of grade makes it necessary or desirable to remodel the Building to conform to the changed grade, the Lessor shall have the right to cancel this lease upon not less than ninety days' notice prior to the date of cancellation designated in the notice. No money or other consideration shall be payable by the Lessor to the Lessee for the right of cancellation, and the Lessee shall have no right to share in the condemnation award or in any judgment for damages caused by the change of grade.

LESSOR AND LESSEE AGREE:

1. LESSEE'S PAYMENTS. (a) Lessee shall pay rent to Lessor at the office of the Building, of the total amount of THREE THOUSAND NINETY and 00/100 Dollars ($3,090.00) in installments as follows: TWELVE (12) of TWO HUNDRED FIFTY-SEVEN and 50/100 DOLLARS ($257.50) payable in advance on the first day of each month.

(b) All other payments due from Lessee to Lessor under this Lease shall be payable ten days after Lessor has given Lessee a written statement of the amount due.

2. SERVICES. Lessor will provide:
   (a) JANITOR SERVICE as is generally furnished in similar buildings. Lessee shall not provide janitor service for the premises without obtaining Lessor's written agreement, which service shall be subject to Lessor's supervision.
   (b) AIR CONDITIONING, except on Sundays and holidays, from 8 A.M. to 6 P.M., Mondays through Fridays and from 8 A.M. to 1 P.M. on Saturdays. For all purposes of this lease "air conditioning" shall be construed to include in addition to air circulation and cleaning:
      i. HEAT, which shall be furnished when in Lessor's judgment heat is necessary for comfortable occupation of the premises; or
      ii. COOLING, which shall be furnished when in Lessor's judgment cooling is necessary for comfortable occupation of the premises.
   (c) WATER from Lessor's fixtures installed in the Building. If Lessee uses water for other than ordinary office purposes, Lessee shall pay Lessor for the water so used at reasonable rates fixed by Lessor.
   (d) ELEVATOR SERVICE as is furnished in similar buildings.
   (e) ELECTRICITY, through connections with conduits of the Commonwealth Edison Company, when and as furnished by that company to Lessor. Electricity used by Lessee shall be measured by meters supplied by Lessor, and Lessee shall reimburse Lessor for all electricity used in the premises, at the rates customarily charged in the Building for similar service.
   (f) TOWEL SERVICE, at the option of Lessor, for which service Lessee shall pay the rate prevailing from time to time for like service in similar buildings in Chicago. Lessor, at its option, may discontinue towel service after ten days' written notice to Lessee, in which event Lessee may obtain towel service from other sources, subject, however, to reasonable regulations of Lessor.
   (g) If during the term of this Lease the tenants of three-fourths or more of the space above the sixth floor of the Building shall cease regularly to occupy such space for business purposes on Saturdays, at Lessor's election, and after notice to the Lessee, Lessor may furnish only the air conditioning, elevator and other similar services which are customarily furnished on Sundays and Holidays.

Lessor will endeavor to continue the services mentioned in this Section 2 without interruptions, but shall not be responsible for interruptions in such services caused by repairs, additions, improvements or alterations in the Building or by any cause or event which Lessor does not control.

3. RIGHTS RESERVED BY LESSOR. Lessor may exercise the following rights and their exercise shall not affect Lessee's obligations under this lease:
   (a) To change the name of the Building.
   (b) To designate the sources from which Lessee may obtain ice, drinking water, towels, toilet supplies or sign and lettering services for office doors.
   (c) To retain pass keys to the premises.
   (d) To enter the premises at reasonable hours for reasonable purposes.
   (e) To show the premises to prospective tenants during the last ninety days of the term of this Lease.
   (f) To decorate or to make repairs, alterations, additions, or improvements, whether structural or otherwise, in and about the Building, or any part thereof, and during such repairs, alterations, improvements or decorations temporarily to close doors, entry ways, public spaces and corridors in the Building and to interrupt or temporarily to suspend Building services and facilities, all without abatement of rent or affecting any of Lessee's obligations hereunder.

4. CARE OF THE PREMISES. Lessee shall be responsible for all damage done to the premises or to the Building by Lessee or by Lessee's employees, agents, invitees or customers, and Lessee shall promptly reimburse Lessor for the full cost of all such damage.

5. SURRENDER OF PREMISES. Upon any termination of this lease, by expiration or otherwise: (a) Lessee shall immediately surrender possession and vacate the premises; (b) Lessee shall return the premises to Lessor in as good condition as existed when Lessee went into possession, except for reasonable wear and tear and damage by any casualty and (c) Lessee hereby grants to Lessor full license to enter into the premises in the event of any such termination.

6. REMOVAL OF LESSEE'S EQUIPMENT. Lessee may remove, prior to termination of this Lease, all floor covering, radiator covers, Venetian blinds, window ventilators and other similar equipment which Lessee may have installed, provided that Lessee shall restore the premises to substantially the same condition that existed prior to such installation. If Lessee fails to remove such equipment at or prior to such termination of this Lease, such failure shall constitute an abandonment of any and all items not removed, and title thereto shall pass to Lessor as of the date of abandonment.

7. POSSESSION AFTER EXPIRATION OF LEASE. If Lessee remains in possession of the premises, or of any part thereof, after the termination of this Lease, whether by expiration or otherwise, Lessee shall pay Lessor rent at double the rate specified in Section 1 (a) of this Lease for the period during which Lessee so remains in possession. If Lessee should remain in possession of the premises or of any part thereof after the expiration of the term of this Lease, at the option of Lessor expressed in a written notice to Lessee and not otherwise, such holding over shall constitute a renewal of this Lease.

8. ASSIGNMENT AND SUBLETTING. Lessee shall not assign this Lease or permit the assignment thereof by operation of law. Lessee shall not sublet the premises or any part thereof, nor permit use thereof by any person other than Lessee and Lessee's employees.

9. ALTERATIONS. Lessee shall not make alterations in or additions to the premises without Lessor's advance written consent, and, if such consent be given, Lessee shall comply strictly with all conditions contained in such consent. Alterations and additions to the premises so made by Lessee shall upon installation be and remain the property of Lessor without reimbursement of Lessee.

10. BUILDING REGULATIONS. Lessee agrees to comply with the rules and regulations which are printed on the back of this Lease and which are made a part of this Section 10. as though here set out in full.

11. DAMAGE OF PREMISES BY FIRE OR OTHER CASUALTY. If the premises or the Building are made untenantable by fire or other casualty, Lessor may elect (a) to terminate this Lease as of the date of the fire or casualty by notice to the Lessee within thirty days after that date, or (b) to repair, restore or rehabilitate the Building or the premises at the Lessor's expense within sixty days after the Lessor is enabled to take possession of the injured premises and undertake reconstruction or repairs, in which latter event this Lease shall not terminate but rent shall be abated on a per diem basis while the premises are untenantable. If the Lessor elects so to repair, restore or rehabilitate the Building or the premises and does not substantially complete the work within the sixty day period, either party can terminate this Lease as of the date of the fire or casualty by notice to the other party not later than seventy days after the Lessor is enabled to take possession of the injured premises and undertake reconstruction or repairs. In the event of termination of the Lease pursuant to this Section 11, rent shall be apportioned on a per diem basis and be paid to the date of the fire or casualty.

12. DEFAULTS OF LESSEE.
Upon the happening of any of the following:
   (a) if Lessee defaults in any of Lessee's undertakings in this Lease; or
   (b) if any voluntary or involuntary petition or similar pleading under any bankruptcy act be filed by or against Lessee; or
   (c) if any voluntary or involuntary proceeding be instituted in any court to declare Lessee insolvent or unable to meet debts; or
   (d) if the leasehold interest of Lessee be levied upon or attached by process of law; or
   (e) if Lessee makes an assignment for the benefit of creditors; or
   (f) if a receiver be appointed for any property of Lessee;

Lessor at its election, and with or without notice, may forthwith terminate this Lease, or take any action available in law, without such termination or other action affecting any rights which it may have against Lessee for past due or future rents or other obligations under this Lease.

If Lessee abandons the premises, Lessor may enter the premises for any purpose without affecting Lessee's obligations hereunder.

13. STORAGE OF LESSEE'S PROPERTY. If on termination of this Lease by expiration or otherwise, or on abandonment of the premises, Lessee shall fail to remove any of Lessee's property from the premises, Lessee hereby authorizes Lessor, at Lessor's option, to cause such property to be removed and placed in storage for the account of and at the expense of Lessee, or on such termination, to sell such property at public or private sale, with or without notice, and to apply the proceeds thereof, after payment of all expenses of removal, storage and sale, to the indebtedness, if any, of the Lessee to Lessor, the overplus if any to be paid to Lessee upon demand.

14. NOTICES. Notices shall be in writing. They shall be effectively served by Lessor upon Lessee in any one of the following manners: (a) by delivery to Lessee, or a representative of Lessee; (b) by forwarding through Certified or Registered Mail, postage prepaid, to Lessee at the premises, in which case the time of mailing shall be the time of notice; (c) by leaving a copy at the premises; or (d) by affixing a copy to any door leading into the demised premises. Notices shall be effectively served by Lessee upon Lessor when addressed to Lessor and served either: (a) upon an officer of Lessor, or (b) upon an authorized person in the office of the Building.

15. MISCELLANEOUS.
   (a) No receipt of money by Lessor from Lessee after any default by Lessee or after the termination of this Lease or after the service of any notice or after the commencement of any suit, or after final judgment for possession of the premises, shall waive such default or reinstate, continue or extend the term of this Lease or affect any such notice or suit, as the case may be.
   (b) No waiver of any default of Lessee hereunder shall be implied from omission by Lessor to take any action on account of such default, and no express waiver shall affect any default other than the default specified in the express waiver and that only for the time and to the extent therein stated.
   (c) Each provision of this Lease shall extend to and shall bind and inure to the benefit not only of Leasor and Lessee but also of their respective heirs, legal representatives, successors, and assigns.
   (d) Submission of this instrument for examination does not constitute a reservation of or option for the premises.
   (e) In the event the premises shall not be completed and ready for occupancy on the date herein fixed for the commencement of the term, this Lease shall nevertheless be in full force and effect and no liability shall arise against Lessor out of any such delay except abatement of rent until the premises are ready for occupancy; provided, however, there shall be no abatement of rent if the space is not ready for occupancy because of work ordered by Lessee and which is not performed by Lessor for reasons which Lessor does not control. If Lessee shall enter into possession of all or any part of the premises prior to the date fixed above for commencement of the term, all of the covenants and conditions of this Lease shall be binding upon the parties hereto the same as if the first day of the term had been fixed as of the date when Lessee entered such possession.

16. TERMINATION BY LESSOR IN CERTAIN CONTINGENCIES. This Lease may be terminated by Lessor on the last day of any month, after six months' written notice thereof to Lessee, under the following circumstances:
   (a) If Lessor determines to wreck or destroy the Building; or
   (b) If the Building or the ground under the Building, are sold to a purchaser or leased for not less than twenty-five (25) years, to a lessee, who desires the premises for its or his own use or for the use of associates, affiliates or subsidiaries of such purchaser or lessee. Any bona fide purchaser of not less than fifty-one per cent (51%) of the outstanding shares of capital stock of Lessor, shall for the purposes of this clause, be considered a purchaser of the Building. The right reserved by Lessor in this paragraph shall be a continuing right and shall inure to the benefit of and may be exercised by and in the name of any successor, transferee, grantee, or assignee of Lessor.

17. LEASE IS ONLY AGREEMENT OF PARTIES. All of the agreements of Lessor and Lessee with respect to the premises are contained in this Lease.

18. Lessor and Lessee each shall have and are hereby granted the right to terminate this lease at the end of any calendar month during its term provided that notice thereof shall have been given in the manner provided in this lease at least thirty (30) days prior to such termination and provided, if terminated by Lessee, there shall be no default by Lessee, either at the time of service of notice or at the effective date of termination, in any of the terms or conditions contained in this lease.

IN WITNESS WHEREOF, LESSOR and LESSEE have caused this instrument to be duly executed this 22nd day of February A. D. 19 68.
